PASSIFLORA

(DANIEL'S)

In cases of nerve starvation, Daniel's Conct. Tinct. Passiflora Incarnata acts as a stimulating and invigorating food as well as a sedative and hypnotic. The nerves are quieted and restored by nourishing and strengthening the depressed vital organs. It is the best remedy for Hysteria in nervous women because it regulates the heart action, produces composure, and gives normal sleep. PASSIFLORA is unequaled in the power to control the nervous system.

SAMPLE SUPPLIED, Physician Paying Express Charges.

HOWELL PARK SANITARIUM

For Treatment of Mild Mental and Nervous Diseases.

WEST END, ATLANTA, GA.

Located in the most beautiful suburb of Atlanta--offers to the sufferers of nervous diseases, a most desirable, equable and invigorating mountain climate; tempered by altitude in summer and latitude in winter; expert medical attendance and a recreatio park. Each patient is made an individual study, and treatment given as indicated.

This institution is conducted on scientific and ethical lines. While embracing all modern methods used in a high-class Sanitarium, all the appointments are that of an **ideal home.**

Booklets are sent on request and correspondence with Physicians is solicited. Address,

J. CHESTON KING, M. D., or C. HORACE McCALL

The Georgia Practician

Why it is of Value to the Advertiser.

BECAUSE

It is the handsomest of the Southern monthlies. Outside it catches the attention; inside it holds it.

BECAUSE

Its departments are personally sub-edited by the leading Southern specialists, and include a special department of Railway Surgery.

BECAUSE

In has the widest official recognition in the South Atlantic States. The organ of the Georgia Medical Society, the Chatham County Medical Society (Savannah), the Richmond County Medical Society (Augusta), the Association of Surgeons of the Seaboard Air Line Railroad, Atlantic Coast Line, etc.

BECAUSE

It is published at a point central for Georgia, Florida, the Carolinas, and Alabama.

BURN-BRAE, A PRIVATE HOSPITAL FOR MENTAL AND NERVOUS DISEASES. (See adv. in PHILADELPHIA.)

IDAHO.

CAPITAL, BOISE.

Population of State, 250,000.
(U. S. Census of 1905.)
Number of Physicians, 284.

Idaho extends from 42 degrees to 49 degrees north latitude, and from 111 degrees to 117 degrees west longitude, and is bounded on the north by British Columbia, on the south by Nevada and Utah, on the east by Montana and Wyoming, and on the west by Washington and Oregon. It comprises an area of 86,294 square miles, or 55,228,160 acres. The Bitter Root Mountains, a chain of the Rockies, form the northeastern boundary, and their spurs and extensions occupy a considerable portion of its surface.

The rivers of the state are, with the exception of the Bear river, tributaries of the Columbia.

The climate is cool and healthful, the mean annual temperature being 52.46.

The following table shows increase in population for 30 years:

1870	14,999	1890	84,385
1880	32,610	1900	161,772

There are numerous mineral springs in Idaho, but they have not as yet been used to any great extent for medicinal purposes. Large quantities of salt are manufactured from the soda springs in the southern portion of the state.

LAW REGULATING THE PRACTICE OF MEDICINE AND SURGERY IN THE STATE OF IDAHO.

Senate Bill No. 26. Passed at the Fifth Session of the Legislature of the State of Idaho. Approved March 3, 1899.

AN ACT to Regulate the practice of Medicine and Surgery Within the State of Idaho, and Providing Penalties for the Violation of This Act; and the Repeal of All Other Acts in Relation Thereto.

Be it enacted by the Legislature of the State of Idaho:

Section 1. The Governor of the State, within sixty days from the expiration of the session of the legislature at which this act shall have been passed, shall appoint a Board of Medical Examiners, to be known and styled "The State Board of Medical Examiners," consisting of six members, a majority of whom shall never be appointed from, nor represent, any one school of medicine, and not less than three schools of medicine shall be at all times represented on said Board, all of whom shall be graduates of reputable medical colleges or universities, in good standing, and learned and skilled in the theory and practice of medicine and surgery, and of good moral repute.

The terms of office of the members forming the first board under this Act shall be as follows, viz: Two members thereof shall be appointed to serve for a period of two years, and two members thereof shall be appointed to serve for a period of four years, and two members thereof shall be appointed to serve for a period of six years. After which all subsequent appointments shall be for a period of six years, and until their successors shall have been appointed and qualified. All persons appointed to serve under said board shall, upon assuming the duties thereof, make oath before a district or probate judge that they are graduates of colleges or universities in good standing, giving names and locations thereof, and that they will faithfully and impartially perform the duties of such office. These oaths shall be made in duplicate, one to be retained on file in the office of the secretary of said board, and one to be forwarded to the Secretary of State, who shall, on receipt of the same, issue to each member appointed on said board, and complying with this section, a certificate of such appointment, under his hand and the great seal of the State: Provided: That the Governor shall remove any member of said board who shall be guilty of any criminal or dishonorable conduct, or who shall be guilty of any unprofessional conduct forbidden by this Act, upon recommendation from the said board, made pursuant to a resolution thereof, duly authenticated and accompanied by all the facts and testimony in possession of said board, upon which the said resolution is based. Vacancies occurring from death, resignation or any other cause, shall be filled by appointment by the Governor within thirty days from the time such vacancies occur, and such appointee shall serve during the unexpired portion of the term of the member whose place he fills: Provided, further, that after the board shall have been constituted and organized, no person otherwise eligible shall thereafter be appointed on said board who is not in possession of a license to practice medicine and surgery in this State under the provisions of this Act.

Sec. 2. Said board shall have authority to prescribe and establish all needful rules, regulations and by-laws, not inconsistent with the laws of this State, or the United States, to carry into effect the provisions of this Act.

Sec. 3. Said board shall organize immediately after appointment by electing from among its members a president, a secretary, and a treasurer, and shall provide a seal and shall attest its acts under said seal. Any member of the board shall have the authority to administer oaths, and the board shall have authority to take testimony whenever the same is necessary in any matter relating to its official acts or duties. Said board shall hold regular meetings on the first Tuesday in the months of April and October in each year at the capital of the State, or at such other places as the board shall designate. Special meetings may also be called, when, in the opinion of a majority of the said board, the same is necessary, and shall be held at such times and places as a majority of the board may designate. Said board shall keep a minute book or general book of record in which all the official acts, proceedings and transactions of said board shall appear in full. They shall also keep in addition thereto a "Cash Book," in which shall appear in detail all receipts and disbursements of said board. They shall also keep a special register, containing the names and addresses of all applicants for license, together with the data required to be furnished in the application for said license. Said special register shall also show whether the applicant received license or was rejected, and if the applicant was rejected it shall contain a full statement of the reasons therefor. Said general book of record, the cash book, and the special register, shall be prima facie evidence of all matters therein recorded, and shall be public records in charge of the secretary of the board.

Sec. 4. The board shall make an annual report to the Governor of the State, which report shall set forth a full and complete history of all its official acts during the year, and shall also contain a true statement of all receipts and disbursements of said board for the period so reported.

WE FURNISH Up-to-date Lists of any business or profession, address envelopes and mail circulars.
R. L. POLK & CO., DETROIT. CHICAGO.

Sec. 5. All persons, except as hereinafter provided, who are legally engaged in the actual practice of medicine and surgery, or either of them, within the State, at the time of the passage of this Act, under the provisions of the medical act of 1887, shall be licensed without examination to continue such practice under this Act, by making application to the State Medical Examining Board upon suitably prepared blanks to be furnished by said board, within six months from the taking effect of this Act. The applicant shall be required to transmit with said application, a certificate from the county recorder from the county in which he or she may reside, that said applicant is a bona-fide resident of the State and has recorded his or her diploma under the provisions of the medical act of 1887, giving date of such record. Persons who received a license under the now defunct medical law of 1897, will simply be required to transmit such license. The fee for license under this section shall be five ($5) dollars and shall in each case accompany the application. Upon fulfillment of the requirements herein stated, the board shall issue to said applicant a license to practice medicine and surgery within this State. Persons for whom the provisions of this section are intended, failing or refusing to avail themselves of the same, shall be and are hereby subjects to the requirements of section six of this Act.

Sec. 6. After the passage of this Act, every person, except as hereinafter provided, desiring to commence the practice of medicine and surgery, or either of them, within the State shall, immediately and prior to commencing the same, make a written application to the State Medical Examining Board, upon suitably prepared blanks, to be furnished by the board, for a license so to do. The applicant shall transmit with said application his or her diploma, together with an affidavit setting forth that said diploma is genuine, and that the applicant is the rightful possessor thereof and the identical person named therein, and that same was obtained by pursuing the regular course of study or examination in said institution, and setting forth that he or she is a citizen of the United States, or has declared their intention of becoming such. If the said diploma has been issued by a reputable college of medicine in good standing, said applicant shall be eligible to examination. All applicants shall be examined in the applied branches of the theory and practice of medicine and surgery, or either of them, as those branches are taught in the reputable chartered schools of the system of medicine to which the applicant belongs and which the applicant intends to practice, and such examination shall in all cases include anatomy, physiology, pathology, diagnosis, hygiene, chemistry, histology and toxicology. No applicant for license shall be allowed to practice medicine and surgery, or either of them, until such license shall have been granted. The board shall cause the examination to be scientific and practical and sufficiently thorough to test the applicant's fitness to practice medicine and surgery, or either of them, and if the applicant correctly answer at least seventy-five per cent of all the questions submitted, said board shall grant the applicant a license to practice medicine and surgery in this State. Every applicant for license under any of the provisions of this Act, must furnish sufficient evidence to the board that they are of good moral character. All applications under this section must be accompanied by twenty-five ($25) dollars, which is the fee for examination under this section. Should the applicant fail to pass said examination, the fee is not returnable. The cost of transmission to and from the board of all papers belonging to an applicant under this or any other section of this Act, shall be paid by the applicant. In the case an applicant, for an examination fails to pass the required examination, he or she may be re-examined after the expiration of six months, and within one year, without the payment of an additional fee, and thereafter said applicant may be examined as often as desired at any regular or special meeting of the board on the payment of the regular fee for such examination. Said board may also refuse a license for unprofessional conduct, or conduct of a criminal, immoral, or dishonorable nature.

Sec. 7. The words "unprofessional or dishonorable conduct" as used in section 6, or any other section of this Act, is hereby declared to mean:

First. The procuring or aiding or abetting in procuring a criminal abortion.

Second. The employment of what are popularly known as "cappers" or "steerers" in procuring practice.

Third. The obtaining of a fee on the assurance that a manifestly incurable disease can be permanently cured.

Fourth. A wilful betrayal of the professional secret to the detriment of the patient.

Fifth. All advertisements of medical business in which untruthful and improbable statements are made.

Sixth. All advertisements of any kind, of any medicine or means, whereby the monthly periods of women can be regulated or the menses can be re-established if suppressed.

Seventh. Conviction of any offense involving moral turpitude.

Eighth. Habitual intemperance in the use of ardent spirits, narcotics or stimulants.

Sec. 8. All questions upon the different branches of medicine and surgery submitted by said board to candidates for examination shall either be written or printed, or partly written and printed, and the questions on each branch shall be arranged upon separate sheets of paper and numbered consecutively.

The candiate shall be supplied with a list of the questions upon but one branch or subject at a time, which, after completing his or her answers thereto, he or she shall be entitled to the next list of questions, and so on in like manner until said candidate shall have been examined in all the branches required. All answers to the questions thus submitted shall be in writing, upon suitable paper furnished by the board, no candidate being permitted to furnish his or her own paper for such written answers. Each list of the candidate's answers must bear the same title as the corresponding list of questions, and each answer shall be numbered to correspond with the question to which it refers. The questions submitted by the board to each candidate examined, together with the answers thereto, shall be placed and kept on file

CUTTER'S ANTITOXIN. The "trust-busting" California serum that broke the ranks of the combine, is **still the lowest-priced and most convenient to use of any.** See adv. beginning Cal.

in the office of the secretary of said board, and shall constitute part of the records of said office.

Sec. 9. When complaint is made to the board, of unprofessional or other conduct, on the part of any licentiate, under the provisions of the act, meriting a suspension, revocation, or cancellation of his license, the board shall have power to hear evidence for and against the accused, touching such complaint, and if the board be satisfied from the evidence of the justice of such complaint, the board must institute proper proceedings in the district court in and for the county where such licentiate resides, for the suspension or revocation, and cancellation of such license, and the district courts of this State are hereby vested with jurisdiction to hear and determine all such proceedings, and to suspend or revoke and cancel any license at issue in any such proceedings. The accused shall be entitled to appear in person or by counsel at every stage of such proceedings, from the first hearing of said complaint before the board to the final disposition of the case in the district court. All costs incident to any such proceeding in the district court shall be assessed by the court as the justice of the case, in the discretion of the court, may require.

In all such proceedings the county attorney shall appear for the board in the district court. In case the board refuse to grant a license to practice under this Act, the applicant shall have the right to have the action of the board refusing such license reviewed by the district court in and for the county in which the meeting at which the license was refused was held, or such other county as may be agreed upon: Provided, proceedings for such review be instituted within ten days after notice of such refusal upon the applicant.

Sec. 10. Any person practicing medicine and surgery within this State, without having obtained a license herein provided for, or contrary to the provisions of this Act, shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be fined in a sum not less than fifty dollars, nor more than three hundred dollars, or by imprisonment in the county jail not less than ten days, nor more than six months, or by both such fine and imprisonment, in the discretion of the court, together with the costs of prosecution, and each day such person continues to practice medicine and surgery, contrary to the provisions of this Act, shall constitute a separate offense.

Sec. 11. Every person receiving a license under this Act shall, within thirty days thereafter, have the same recorded in the office of the county recorder, within the county where the licentiate intends to practice. Otherwise, said license is void. The county recorder of each county shall have suitably prepared, a separate "book of record," in which all the licenses under this Act, presented to them, shall be recorded, and on the first day of December of each year, furnish the Secretary of "State Medical Examining Board" a list of the licenses on record in his office, and upon notice to him from said secretary of the revocation of any license on record in his office, or of the death or removal from the county of any person whose license is on record therein, said recorder shall make a note of the fact on the page containing the record of said license, so that the records kept by said county recorder shall correspond with the records of his county, as kept by the secretary of said medical board.

Sec. 12. All licenses issued by the board shall be numbered consecutively and in the order issued. Each license shall be signed by the president and secretary of the board under the official seal of the board issuing same. Four members of the board shall constitute a quorum to transact business at any regular or special meeting.

Sec. 13. The words "respectable or reputable medical college or university in good standing" are hereby declared to mean such medical colleges or universities as are legally chartered, reputable, and in good standing within the State or county where they are located.

Sec. 14. Any person shall be regarded as practicing medicine and surgery, or either, who shall advertise in any manner, or hold himself or herself out to the public as a physician and surgeon, or either, in this State, or who shall investigate or diagnosticate or offer to investigate or diagnosticate any physical or mental ailment of any person with a view of relieving the same as is commonly done by physicians or surgeons, or suggest, recommend, prescribe or direct, for the use of any person, sick, injured or deformed, any drug, medicine, means or appliance for the intended relief, palliation, or cure of the same, with the intent of receiving therefor, either directly or indirectly, any fee, gift or compensation whatsoever: Provided, however, this Act shall not apply to dentists and registered pharmacists or midwives in the legitimate practice of their respective professions, nor to services rendered in cases of emergency, where no fee is charged. Any person who shall present to the board, as his or her own, the diploma of another, or a forged affidavit of identification, or who shall attempt to personate another practitioner of a like or different name, shall, upon conviction thereof, be subject to such fine and imprisonment as are made and provided by the statutes of the State of Idaho for the crime of forgery.

Sec. 15. It shall be the duty of the county attorneys to prosecute all violations of this Act within their respective counties. And in all cases of appeal to the supreme court of the State, the attorney general thereof shall represent said board upon said appeal. The board shall investigate all complaints of non-compliance with, or violations of, the provisions of this Act, and to bring all such cases to the notice of the proper prosecuting officers.

Sec. 16. This Act shall not apply to commissioned medical officers of the United States army, navy and marine hospital service in the discharge of their official duties, nor to railway surgeons in the discharge of official duties, nor to legally qualified physicians and surgeons from other states, when called in consultation with any legally qualified physician and surgeon of this State.

Sec. 17. The members of said board shall look alone to the revenues of this Act for reimbursement of actual expenses incurred in attendance upon the business of sessions of said board, and they shall look alone to the same source for their per diem allowance, which shall not exceed the sum of five dollars per day each, for each day said board may be in actual session.

For the treatment of Alcohol, Morphine, Opium, Cocaine an other Drug Habits,
(See advt. inside front cover.)
GO TO Moores Brook Sanitarium
Charlottesville, Va.

Sec. 18. The Governor is hereby empowered to receive from the late secretary of the now defunct state board of medical examiners all property and money in his possession belonging to the said board, and to deliver same to the secretary of the State Board of Medical Examiners to be by him appointed under this Act.

Sec. 19. All other acts and parts of acts regulating the practice of medicine and surgery in this State are hereby repealed.

Sec. 20. Whereas, an emergency is hereby declared to exist, this bill shall be in force and take effect from and after its passage and approval by the Governor.

Approved on the 3rd day of March, 1899.

EXTRACTS FROM THE LAW AND RULES OF THE BOARD.

"No temporary license or permits can be granted under the law."

"Practice in the State is prohibited under penalty, until license is first obtained."

"An examination in person before the Board is required in all cases; no 'private' examinations can be held by individual members of the Board."

"The Board meets for examinations on the first Tuesday in April and October each year."

"The subjects embraced in the examinations are: Anatomy, Physiology, Chemistry and Toxicology, Materia-Medica and Therapeutics, Diagnosis, Theory and Practice, Hygiene, Obstetrics, Gynecology, Surgery, Pathology and Histology."

"The fee for examination is $25.00, which should be forwarded with the application to the Secretary; diploma and other credentials should be presented in person at the time of examination."

"Application blanks and further information may be had by addressing the Secretary, J. L. Conant, Jr., M. D., Secretary, Genesee, Idaho."

LIST OF PHYSICIANS

ARRANGED ALPHABETICALLY BY POSTOFFICES.

For Corrections and Names Received Too Late for Regular Insertion, see Supplement. Refer to Index for Location.

ABBREVIATIONS:

R., Regular; H., Homœopathic; Ecl., Eclectic; P. M., Physio-Medical; *, No report received; §, Holds certificate of Examining Board; †, Legally authorized under the "5 years of practice" section of the act; ¶, Druggist; ‹, Dentist. R D 1, Rural Delivery No. 1.

The postoffice address is shown in DISPLAY TYPE, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 145-189) indicates the college of graduation, and the last number the year in which diploma was granted.

ILLINOIS.

CAPITAL, SPRINGFIELD.

Population of State, 4,821,550.
(U. S. Census of 1900.)
Number of Physicians, 9,609.

Illinois was organized as a territory March 1, 1809, and admitted as a state December 3, 1818. The population of the state, according to the U. S. census of 1900, is 4,821,550, as compared with a population in 1890 of 3,826,351, showing an increase during the decade of 995,199, or 26 per cent. The following table shows the increase since 1850:

1850	851,470	1880	3,077,871
1860	1,711,951	1890	3,826,351
1870	2,539,891	1900	4,821,550

In 1673 the early French missionaries and traders from Canada, extending their explorations to the southwest of Lake Michigan, found certain Indians inhabiting this region who were known as the Illinois tribe, or Illini, as the name was first spelled by the French. The name was soon transferred to the river, along the banks of which the Illinois tribe had numerous villages, and afterwards applied to the country on either side of the river and as far south as the Ohio. During the French and British occupations this rather indefinite region was known as "The Illinois country," retaining the name "Illinois" when organized afterwards as a territory and a state.

The parallel 42 degrees 30 minutes north latitude forms the northern boundary extending from Lake Michigan to the Mississippi river, a distance of about 150 miles. About the same length of its eastern boundary is formed by the meridian 10 degrees 25 minutes west from Washington. Besides these two lines it has the natural

SIMPLE. SAFE. SURE. The Ideal General Anaesthetic for Minor Surgery.
E de TREY & SONS.
PHILADELPHIA AND NEW YORK.

boundaries of Lake Michigan on the northeast, the Wabash and Ohio rivers on the east and southeast, and the Mississippi for its very irregular western boundary. Its extreme length, north and south, is 385 miles, and its greatest width, east and west, 218 miles. Its area is about 56,000 square miles, or 35,840,000 acres, nearly the whole of which is arable, the state containing a smaller proportion of waste land than any state in the Union, with the possible exception of Iowa. Its area is greater than that of England or the two kingdoms of Denmark and Portugal combined, or of all the New England states exclusive of Maine. It is easily the first agricultural state in the Union, and ranks first also in its railroad mileage. It is now the third state in population, among the first in manufacturing industries, and has within its boundaries a wealth of resources unsurpassed by any other state.

The climate is pleasant and healthful and perpetual breezes blow over the prairies, modifying the summer heats, while Lake Michigan makes the neighboring regions warmer in winter and cooler in summer. The diversity of the climate depends largely on the extent of the state north and south, one end being in the latitude of Boston, Mass., and the other in that of Norfolk, Va. The fluctuations in temperature are often great and sudden, but the vital statistics show that the climate is remarkably healthful.

MEDICAL LAW OF ILLINOIS.

(Extract from the Revised Statutes of Illinois, 1899.)

AN ACT TO REGULATE THE PRACTICE OF MEDICINE IN THE STATE OF ILLINOIS, AND TO REPEAL AN ACT THEREIN NAMED.

Section 1. Organization and Duties of State Board of Health.—Be it enacted by the People of the State of Illinois represented in the General Assembly: That the State Board of Health shall organize within three months after the passage of this act; it shall procure a seal and shall receive through its secretary applications for certificates and examinations. The president and secretary shall have the authority to administer oaths, and the board to take testimony in all matters relating to its duties.

Sec. 2. License from State Board of Health Required—Applications for License—Examinations—Graduates of Legally Chartered Medical Colleges in Illinois in Good Standing Granted Certificates.—No person shall hereafter begin the practice of medicine, or any of the branches thereof, or midwifery, in this State without first applying for and obtaining a license from the State Board of Health to do so. Application shall be in writing, and shall be accompanied by the examination fees hereinafter specified, and with proof that the applicant is of good moral character. Applications from candidates who desire to practice medicine and surgery in all their branches shall be accompanied by proof that the applicant is a graduate of a medical college or institution in good standing, as may be determined by the board. When the application aforesaid has been inspected by the board and found to comply with the foregoing provisions, the Board shall notify the applicant to appear before it for examination, at the time and place mentioned in such notice.

Examinations may be made in whole or in part in writing by the board, and shall be of a character sufficiently strict to test the qualifications of the candidate as a practitioner. The examination of those who desire to practice medicine and surgery in all their branches shall embrace those general subjects and topics, a knowledge of which is commonly and generally required of candidates for the degree of doctor of medicine, by reputable medical colleges in the United States. The examination of those who desire to practice midwifery shall be of such a character as to determine the qualification of the applicant to practice midwifery. The examination of those who desire to practice any other system or science of treating human ailments who do not use medicines internally or externally, and who do not practice operative surgery shall be of a character sufficiently strict to test their qualifications as practitioners. All examinations provided for in this act shall be conducted under rules and regulations prescribed by the board, which shall provide for a fair and wholly impartial method of examination. Provided, that graduates of legally chartered medical colleges in Illinois in good standing as may be determined by the board, may be granted certificates without examinations.

Sec. 3. License to Practice—Provisions.—If the applicant successfully passes his examination, or presents a diploma from a legally chartered medical college in Illinois of good standing, the board shall issue to such applicant a license authorizing him to practice medicine, midwifery or other system of treating human ailments, as the case may be: Provided, that those who are authorized to practice other systems can not use medicine internally or externally or perform surgical operations: Provided, further, that only those who are authorized to practice medicine and surgery in all their branches shall call or advertise themselves as physicians or doctors: And, provided further, that those

who are authorized to practice midwifery shall not use any drug or medicine or attend other than cases of labor. Such license shall be in such form as may be determined by the board, and in accordance with the provisions of this act: Provided, however, that any willful violation on the part of an applicant of any of the rules and regulations of the board, governing examinations shall be sufficient cause for the board to refuse to issue a license to such applicant. Such certificates shall be signed by all members of the board and attested by the secretary.

Sec. 4. Certificates to be Recorded in Office of County Clerk—Records of County Clerk.—Every person holding a certificate from the State Board of Health shall have it recorded in the office of the clerk of the county in which he resides or practices within three months from its date, and the date of recording shall be endorsed thereon. Until such certificate is recorded, as herein provided, the holder thereof shall not exercise any of the rights or privileges conferred therein. Any person practicing in another county shall record the certificate in like manner in the county in which he practices, and the holder of the certificate shall pay to the county clerk the usual fee for making the record. The county clerk shall keep, in a book provided for the purpose, a complete list of the certificates recorded by him, with the date of the issue of the certificate. The register of the county clerk shall be open to public inspection during business hours.

Sec. 5. Examination Fees.—The fees for examination and for a certificate shall be as follows: Ten (10) dollars for examination in medicine and surgery, and five (5) dollars for a certificate if issued. Five (5) dollars for an examination in midwifery, and three (3) dollars for a certificate if issued. For all other practitioners ten (10) dollars for an examination and five (5) dollars for a certificate if issued.

Sec. 6 Unprofessional or Dishonorable Conduct—Board May Withhold or Revoke Certificates—Hearing.—The State Board of Health may refuse to issue the certificates provided for in this act to individuals who have been convicted of the practice of criminal abortion, or who have by false or fraudulent representation, obtained or sought to obtain practice in their profession, or by false or fraudulent representation of their profession have obtained or sought to obtain money or any other thing of value, or who advertise under names other than their own, or for any other unprofessional or dishonorable conduct, and the Board may revoke such certificates for like causes. Provided, that no certificates shall be revoked or refused until the holder or applicant shall be given a hearing before the board.

Sec. 7. Definition of this Act.—Any person shall be regarded as practicing medicine, within the meaning of this act, who shall treat or profess to treat, operate on or prescribe for any physical ailment or any physical injury to or deformity of another: Provided, that nothing in this section shall be construed to apply to the administration of domestic or family remedies in cases of emergency, or to the laws regulating the practice of dentistry or of pharmacy. And this act shall not apply to surgeons of the United States army, navy or marine hospital service in the discharge of their official duties, or to any person who ministers to or treats the sick or suffering by mental or spiritual means, without the use of any drug or material remedy.

Sec. 8. Itinerant Venders—License—Penalties.—That any itinerant vender of any drug, nostrum, ointment or appliance of any kind intended for the treatment of diseases or injury, who shall, by writing or printing, or any other method, profess to the public to cure or treat disease or deformity by any drug, nostrum or application, shall pay a license of one hundred (100) dollars per month into the treasury of the board, to be collected by the board in the name of the people in the State of Illinois, for the use of said board. And it shall be lawful for the State Board of Health to issue such license on application made to said board, said license to be signed by the president of the board and attested by the secretary with the seal of the board; but said board may for sufficient cause refuse said license. And such itinerant vender, who shall, by writing or printing, or any other method, profess to cure or treat disease or deformity by any drug, nostrum or appliance without a license so to do, shall be deemed guilty of a violation of this section, and upon conviction shall be subject to the penalties hereinafter provided.

Sec. 9. Penalty for Practicing Without License.—Any person practicing medicine or surgery or treating human ailments in the State without a certificate issued by this board in compliance with the provisions of this act, or any itinerant vender violating the provisions of section 8 of this act, shall for each and every instance of such practice or violation forfeit and pay to the people of the State of Illinois, for the use of the said Board of Health, the sum of one hundred (100) dollars for the first offense, and two hundred (200) dollars for each subsequent offense, the same to be recovered in an action of debt before any court of competent jurisdiction, and any person filing or attempting to file as his own, the diploma or certificate of another, or a forged affidavit of identification, shall be guilty of a felony, and upon conviction shall be subject to such fine and imprisonment as are made and provided by the statutes of the State for a crime of forgery: Provided, that this section shall not apply to physicians who hold unrevoked certificates from the State Board of Health issued prior to the time of the taking effect of this act.

Sec. 10. Enforcing Penalties—Appeals.—Upon conviction of either of the offenses mentioned in this act the court shall, as a part of the judgment, order that the defendant be committed to the common jail of the county until the fine and costs are paid, and upon failure to pay the same immediately the defendant shall be committed under said order for first offense not more than thirty (30) days, and for each subsequent offense not more than ninety (90) days: Provided, that either party may appeal in the same time and manner as appeals may be taken in other cases, except that where an appeal is prayed in behalf of the people, no appeal bond shall be required to be filed, whether the appeal be from the justice of the peace or from the county or circuit courts, or from

Specify CUTTER'S, when ordering DIPHTHERIA ANTITOXIN

It is highly effective, easy to use, low-priced and "anti-trust." (See page 261.)

the appellate court. But it shall be sufficient in behalf of the people of the State of Illinois, for the use of the State Board of Health, to pray an appeal, and thereupon appeal may be had without bond or security.

Sec. 11. Board to Make Report of Proceedings and Pay All Funds Into State Treasury on September 30th of Each Year.—On the 30th day of September of each year the State Board of Health shall make report of its proceedings, showing all items of receipts from all sources and disbursements for all purposes, and all funds in the treasury on said date which have been received in the enforcement of this act shall be paid into the state treasury.

Sec. 12. Repeal.—An act to regulate the practice of medicine in the State of Illinois, approved June 17, 1887, in force July 1, 1887, and all other acts and parts of acts inconsistent with this act are hereby repealed.

SCHEDULE OF MINIMUM REQUIREMENTS FOR MEDICAL COLLEGES TO BE DETERMINED IN "GOOD STANDING."

Adopted by The Illinois State Board of Health, July 8, 1902. In force January 1, 1903.

CONDITIONS OF ADMISSION TO LECTURE COURSES.

1. Creditable certificates of good moral character signed by two physicians of good standing in the State in which the applicant last resided.

2. As evidence of preliminary education, as a minimum requirement, a diploma or certificate of graduation from a high school; or a certificate signed by a principal of a regularly organized high school or by the examiner of the faculty of a recognized literary or scientific college or university, or by the State Superintendent of Public Instruction, or a Superintendent of Public Schools, of having successfully passed an examination in all the several branches embraced in the curriculum of a four years' high school course. The matriculation examination shall not be conducted by any member of the faculty of the medical college.

The Illinois State Board of Health will require each applicant for a State certificate to present documentary evidence of his preliminary education together with his medical diploma, when taking the examination of the board.

The conditions above set forth will govern in the case of all persons admitted to the freshman year of a medical college in "good standing" on or after January 1, 1903.

ADVANCED STANDING.

Applicants holding the degree of A. B. or B. S. or an equivalent degree from a regularly established college of arts or science, which requires an attendance of three or more years as an essential to graduation, may be given credit for work done in the branches of the medical curriculum of the first year and may be advanced to the sophomore year of a four years' medical course, on condition that they comply with the entrance requirements of this board and that they subsequently complete the work of the freshman year if not already completed, and that the work already taken shall not be below the standard required by this board.

The same advanced standing may be allowed on the same conditions to applicants presenting a degree from a recognized college of dentistry or college of veterinary medicine, or documentary evidence of having completed in a reputable university or college of arts or science, the major part of the work usually embraced in the curriculum of the freshman course of a recognized medical school.

No such advanced standing shall be allowed until after the applicant shall have either graduated as indicated or performed the work specified above, and not until three months after the completion of said work.

The above requirements for advanced standing will govern in the case of all persons admitted to the sophomore year of a medical college on or after January 1, 1903, and may be made operative prior to that time.

Graduates of medical colleges recognized at any time by the Illinois State Board of Health, may be admitted to any class without examination. Students of said colleges who possess certificates of attendance and of successful examinations, can enter without examination the term immediately following that previously attended. The student shall be required to pass an examination in all branches in which he has been found deficient. Students who have attended one or more full terms in colleges not fully recognized by this board may be granted advanced standing in accordance with such attendance, on complying with the entrance requirements set forth in the conditions of admission to lecture courses, and passing all examinations and performing all laboratory work of the classes below that which they enter, providing that the work already done conforms to the requirements of this board.

Graduates or students of colleges to which no recognition is given by the Illinois State Board of Health can be granted no advanced standing whatever.

LENGTH, NUMBER AND CHARACTER OF COURSES OF LECTURES.

The college shall have a four years' course of instruction consisting of four terms, extending over a period of four calendar years, and the minimum time between the commencement of the work of the freshman year and the ending of the work of the senior year, on which all students are required to be in attendance, shall be not less

POLK'S NATIONAL DIRECTORIES.
We can furnish lists of any trade not included in the above.

R. L. POLK & CO., Publishers, DETROIT, MICH.

than forty months. No two terms begun on or after January 1, 1903, shall commence and end within any consecutive sixteen months.

The time occupied in each regular term begun on or after January 1, 1902, shall be not less than seven months or thirty weeks, and each such term shall consist of not less than eight hundred hours of work.

The branches of medicine to be included in the course of instruction shall be at least as follows: (1) Anatomy, (2) physiology, (3) chemistry, (4) materia medica and therapeutics, (5) theory and practice of medicine, including ophthalmology, otology, dermatology and neurology, (6) pathology and bacteriology, (7) surgery, including orthopedic surgery, (8) obstetrics, (9) gynecology, (10) hygiene, (11) medical jurisprudence, (forensic medicine).

ATTENDANCE.

1. Regular attendance during the entire lecture courses shall be required, allowance being made only for absences occasioned by the sickness of the student or his immediate family, such absence not to exceed 20 per centum of the course.

DISSECTIONS, CLINICS AND HOSPITAL ATTENDANCE.

1. Each student must have dissected at least the lateral half of a human cadaver.
2. He shall have received clinical and hospital instruction throughout at least two annual terms.

INSTRUCTION.

The college must have a sufficient and competent corps of instructors, and facilities for teaching, dissections, ambulatory and hospital clinics such as obtain in the majority of medical colleges in the United States.

GRADUATION.

No student shall be graduated by any medical college in "good standing" with the Illinois State Board of Health who has not completed four full terms of lectures as prescribed by the rules of the said board (certain persons to whom advanced standing is allowed excepted) and has complied with the requirements of the said college, as set forth in the published announcement of the college, and has completed in the college by which his diploma is granted, a continuous course of lectures in the senior year of at least seven months in duration.

FURTHER CONDITIONS OF RECOGNITION OF MEDICAL COLLEGES.

Rule 1. Only regularly conducted and legally chartered medical colleges which conform to the conditions of admission to lecture courses, the course and period of study, the number, character and length of lecture terms, the duration of attendance on hospital and clinical instruction, as set forth in the schedule of minimum requirements adopted by the Illinois State Board of Health, and the other requirements of a medical education which obtain as the practice of a majority of the established medical colleges in the United States, shall be considered medical institutions in "good standing" according to the purpose of the act to regulate the practice of medicine in the State of Illinois, approved April 24, 1899.

Rule 2. No medical college can be held to be in "good standing" until it has established its claim to such standing by an active existence of not less than four years, and then only on compliance with the terms of Rule 1. Provided, that colleges which, after a personal investigation made by a committee of the Illinois State Board of Health, are shown to comply with the schedule of minimum requirements and to possess a sufficient and competent corps of instructors, and the necessary facilities for teaching, may, at the discretion of the board, be granted full recognition during the first year of existence.

Rule 3. All medical colleges in "good standing" with the Illinois State Board of Health will be required to publish in their annual announcements or catalogues a complete list of all matriculates and a separate list of all graduates of the session or year immediately preceding.

Rule 4. No medical college will be considered in "good standing" with the Illinois State Board of Health which publishes in its annual announcement or catalogue, or otherwise, any misrepresentations regarding the curriculum of the college or the facilities for instruction, or the number of students matriculated or graduated.

NOTE.

All colleges in "good standing" with the Illinois State Board of Health will be required to conform to the schedule of minimum requirements in all regular courses commencing on or after January 1, 1903.

Advanced standing to the sophomore, junior or senior years may be granted to students who have completed courses in the freshman, sophomore, or junior years, prior to June 30, 1903, in accordance with the schedules of minimum requirements heretofore adopted by the Illinois State Board of Health.

All rules and regulations governing medical colleges which have been heretofore adopted by the Illinois State Board of Health will stand repealed on December 31, 1902.

Published by order of the board.

Kenilworth Sanitarium

KENILWORTH, ILLINOIS.

Telephones: Kenilworth 78; Evanston 778.

The Kenilworth Sanitarium is entirely new and was constructed and equipped to supply the demand for a first-class neuropathic and psychopathic hospital, easily accessible to the residents of Chicago and vicinity.

It is situated about half a mile due west of the Kenilworth station [C. & N. W. Ry.,] six miles north of Chicago, from which, in addition to steam and trolley cars, it may be reached at all seasons of the year by good carriage road.

The grounds consist of ten acres lying nearly one and one-half miles from the shore of Lake Michigan and the distance from car lines and other sources of noise is such as to insure practically complete rural quietude.

The accommodations for patients consist of six independent groups of from six to seven large bedrooms, some of which are so constructed as to be impervious to noise, a spacious sitting-room and corridor and two bath-rooms, one of which in each group is planned to be used en suite when desired. There are also four separate dining-rooms. Thus it will be seen that the supreme importance of thorough classification in institutional treatment of the neuroses has been duly recognized.

There is an electric passenger elevator, electric lighting, and a complete system of telephones.

The warming is by steam, both direct and indirect radiation having been provided to each sleeping and sitting room.

An abundance of pure water is supplied from a bored well, 148 feet deep, on the premises.

There are twelve bath-rooms for the use of patients, six of which may be used en suite. They all have the most modern open plumbing, ceramic tile floors, and porcelain and enameled fixtures. Both floors and finish are of hardwood throughout the building, and the appointments are all first class.

Ample provisions have been made for the employment of the most approved diagnostic and therapeutic methods, it being rather the purpose of the management to actively ameliorate suffering and promote recovery than merely to extend custodial care to those who are unable to live at large. In other words, it is aimed to conduct a neuropathic and psychopathic hospital rather than a mere asylum.

Bochert Springs Medicinal Water

AN UNQUALIFIED SUCCESS
A FOUNTAIN OF YOUTH
HEALTH AND LONGEVITY

Nature's Own Remedy, Pure and Clear as Crystal. Endorsed and prescribed by Leading Practitioners.

Unique in pleasant appeal to the palate; wonderful in attacking stubborn physical ailments, and of such vitalizing curative and building properties that no water substitute for old time, ineffective, nauseating drugs can be compared with Bochert for instantaneous and permanent results.

Its Miraculous Effect in Cases of Obstinate Afflictions:

Bright's Disease, Diabetes, Torpid Liver, Stone in Bladder, or Kidney, Stomach Diseases, Intestinal Indigestion, Gout, Rheumatism, Renal Calculi, Anaemia and Debility, Dyspepsia, Eczema, Acne, Blood and Skin Diseases, Nervous Disturbances and Kindred Ailments,

HAS MADE BOCHERT FAMOUS IN A BRIEF PERIOD AS THE LEADER OF ALL MEDICINAL WATERS.

Extracts from a few of our Testimonials.

THE WEST SIDE HOSPITAL, of Chicago.

No. of Patient, 1426. Room, 402; Interne, Keefe; Attending Physician, Dr. Warren. Name, Miss Forkin; Civil State, Single. Race, White. Age, 50; Occupation, Milliner; How long—Sick—; Nativity, American; Admitted 2-5-'06; Hour 10:45 a.m.

Physical exam: Patient unconscious, eyeballs rolled upward, pupils contracted, eyelids puffy, face swollen, skin is white, cold and dry. Lower limbs oedematous. A burn on right foot. Right limb atrophied, shorter than left. Heart, lungs, negative. Anaemia is pronounced; oedema marked; little moisture of skin noticeable.

Telephone West 777
H. S. WARREN, M. D.
1360 Jackson Boulevard
Chicago

Mr. John B. Seghers, Sec'y. & Treas.
The Bochert Springs Medical Co.

Sir: I enclose the history of Miss Forkin made by the interne at the West Side Hospital. You have my permission to use it as you like, for I am convinced that her recovery was due to the use of your waters. Miss Forkin came under my care two (2) days before her entrance into the West Side Hospital and it was my opinion that she would live but a few days at the time I sent her to the hospital, but her condition was such that she could not get the proper care at the residence where she was when I first visited her, and by the way, I will state here that two days before her entrance to the hospital and the day of my first visit to her, she had (12) convulsions, the next day two (2) and was unconscious when I sent her to the hospital. The convulsions were controlled by rectal medication of 60 grs. of Bromide Soda and 20 grs. chloral every 2 hours and this treatment was continued until she arrived at the hospital, where she received nothing but your Water, as you can see by the urinalysis slips which were made in the Laboratory each day that there was abundant albumen and all kinds of casts, that the albumen decreased daily from about 2 per cent. on her entrance to 1-10 of 1 per cent. ten days later. That in every way she made rapid improvement up to the time she returned to her home in Wisconsin. If this was the only case that I have tried the Water on, I might think it only a coincidence, but as I know of others that have used the Water with the same result, must give all credit to the Water.

Yours,
March 6, 1906. W. S. WARREN.

Dr. C. A. David, Champlain Building, Chicago. "I have used the Bochert Medical Water in two cases of Diabetes Mellitus with highly satisfactory results. The first patient had 4 per cent. of sugar in his urine when he began drinking the water. In about 10 days there was only 2 per cent. of sugar and in a month all traces of sugar had disappeared. Three months later analysis showed no trace of sugar. The second case had a similar experience.

Dr. George Whitfield Overall, 79 Madison St., Chicago.—"The Bochert Medical Water is particularly adapted to the relief of irritable bladders of middle aged and old men who are suffering with prostatic troubles. * * My experience with the Water justifies me in especially recommending it to those suffering with kidney, bladder and prostatic troubles."

The Water may be Secured at your Druggist or from the proprietors.

BOCHERT SPRINGS MEDICAL WATER CO.

Springs in Ozark Mountains, Jefferson Co., Mo.

Distributing Depot, 2259 Cottage Grove Ave. Tel. South 861. CHICAGO, ILLINOIS.

THE
Lakeside Hospital

The Oldest and Best Equipped Private Hospital in Chicago.

The wards are especially desirable and attractive, and are provided with bath and toilet rooms.

The private rooms are furnished with every convenience and comfort consistent with perfect sanitation, a number being provided with private bath and lavatory.

The Sterilizing Room is provided with some original features to which your attention is invited. Here is found every appliance for the sterilization of instruments, ligatures and dressings. In this room the entire water supply for the operating rooms and surgeons' preparation room is first filtered, then sterilized.

The Surgeons' Preparation Room, besides the usual apparatus for preparatory work, is provided with a very modern shower bath.

The Operating Rooms are furnished with every modern appliance, with a graduate nurse in constant attendance. The appointments of these rooms are second to none in the city.

A. RALPH JOHNSTONE, M. D.,
Superintendent and Physician in Charge,

Long Distance Telephone OAKLAND 1220. 4147 Lake Avenue, **CHICAGO**

The Lakeside Hospital Training School for Nurses

offers a three-year course of training to young women from twenty to thirty years of age. Requirements, good health, good moral character and a high school education.

Charlottesville, Va.

ESTABLISHED 1888.

STREETER HOSPITAL

2646 Calumet Ave., CHICAGO.

TELEPHONE SOUTH 90.

ONE of the best hospitals in the country. Every convenience for the treatment of medical and surgical cases; aseptic, elegant and homelike. All rooms are private and have south exposure.

THE advantages of Streeter Hospital are open to the profession, who are welcome to every privilege of the hospital, and are assured that their patients will be absolutely under their control.

THIS GENERATOR FREE, WRITE US HOW TO GET ONE.

DR. GEO. LEININGER'S
SOLIDIFIED FORMALDEHYDE AND APPARATUS.

Physician's Size Generator No. 2.

PATENT APPLIED FOR

For DISINFECTION, DEODORIZATION, PREVENTION and TREATMENT of CONTAGIOUS DISEASES.

Its simplicity of operation, thorough efficiency and economy, appeal to all.

This Generator has a capacity of disinfecting 25,000 cubic feet in one hour, never gets out of order, and any child can operate same.

There is only one Solidified Formaldehyde, and that is (Leininger's), and we guarantee Dr. Leininger's Solidified Formaldehyde to be the active principle of Formaldehyde, for COMPARISON, the same as Strychnine is to Nux Vomica, or Morphine is to Opium, therefore (Leininger's) Solidified Formaldehyde is more powerful than any Germicide known on the market today, and we will guarantee that 1 oz. of Solidified Formaldehyde has the same killing power as 3 lbs. of 40 per cent. solution and that there is absolutely nothing in Solidified Formaldehyde (Leininger's) but the active principle of Formaldehyde.

BEWARE OF IMITATORS AND IMPOSTORS.

There is Only One Solidified Formaldehyde and that is (Leininger's).

Write us for Our 80 page Book on Solidified Formaldehyde Sent Free.

ESTABLISHED 1857.

A Private Home

FOR THE SCIENTIFIC TREATMENT OF CHRONIC DISEASES.

Special Department for

NERVOUS CASES,
DRUG AND ALCOHOLIC HABITUES.

The Pennoyer Sanitarium, Kenosha, Wis.

Between Chicago and Milwaukee, Facing Lake Michigan, on the Northwestern Railroad, and Chicago and Milwauk e Electric Railroad.

The Sanitarium comprises a main building and outlying cottages situated in large, well kept grounds (100 acres), bordering on Lake Michigan. The management is in the hands of physicians of long experience in state and private institutional work.

For further information and illustrated booklet, address the managers.

INDIAN TERRITORY.

Population, 391,960.
(U. S. Census of 1900.)
Number of Physicians, 1049.

The Territory is bounded on the north by Oklahoma Territory, on the south by Texas, on the east by Arkansas, and on the west by Texas, and comprises an area of 29,961 square miles, or 19,175,000 acres. It forms part of that vast inclined plane which slopes gradually down from the base of the Rockies to the Mississippi river. The valleys of the rivers in the eastern portion are fertile. The Arkansas, Red and Canadian rivers, with their tributaries, drain the Territory. The climate is warm and dry, the southeastern being the hottest and the northwestern the coldest portions; the mean annual temperature in the former is 60 degrees and the latter 55 degrees. The mean average rainfall is 31.2 inches.

BOARD OF HEALTH—CHOCTAW NATION.

Pickens Co Medical Society—Sec, R H Alvis, Ardmore.

MEDICAL LAWS OF INDIAN TERRITORY.

(Public—No. 157.)

AN ACT REGULATING THE PRACTICE OF MEDICINE AND SURGERY IN THE INDIAN TERRITORY.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That hereafter no person shall practice medicine and surgery, or either, as a profession in the Indian Territory without first being registered as a physician and surgeon, or either, in the office of the clerk of the United States court in the district in which he or she offers to practice.

Sec. 2. That each district clerk in the Indian Territory shall keep in his office a well-bound book, in which he shall register the names of all such persons as shall be lawfully qualified, as hereinafter provided, and who shall apply for registration as physician and surgeon, or either, with the date of such registration.

Sec. 3. That hereafter any person who may wish to practice the science of medicine or sugery, or both, in the Indian Territory shall be allowed to register as such who shall file with the clerk of the United States court of any district in the Indian Territory a certificate of qualification signed by a majority of the board of medical examiners of the district in the Indian Territory in which he or she offers to register: Provided, That any person living in a district in which no board is organized may apply to the board of some other district in the Indian Territory.

Sec. 4. That immediately after the passage of this Act the United States judge of each district in the Indian Territory shall appoint for his district a board of med-

DRINK AND DRUG HABITS Cured without suffering by the OPPENHEIMER TREATMENT.
159 W. 34th St. New York. (See page 9)

ical examiners, consisting of three persons, who shall be citizens of the district and learned in the science of medicine and surgery, of good moral character, graduates of some reputable medical college, recognized by either of the American medical college associations, and who shall thereafter be duly registered under this Act, who shall hold their office for a period of four years, or until their successors are duly appointed and qualified; and should a vacancy occur in any of said boards at any time, the same shall be filled by appointment made by the United States judge of the district in which the vacancy occurs.

Sec. 5. That the members of said board shall, before entering upon the discharge of their duties, take the official oath required to be taken by officers of the Indian Territory.

Sec. 6. That at the first meeting of the members of such boards, after they shall have been appointed, preparatory to the transaction of business assigned them under this Act, they shall organize by electing one of their members as president and and another as secretary, and adopt a seal.

Sec. 7. That physicians and surgeons who shall be engaged in practice at the time of the passage of this Act shall each, within six months thereafter, present to said board their diplomas, together with affidavit in each case that the affiant is the lawful possessor of the same and he is the person named therein. Such as have no diplomas shall within the same time submit sworn applications, setting forth the extent of their medical education and their experience as practitioners, and shall be subjected to a careful examination by the board.

Sec. 8. That the regular meetings of each board shall be held quarterly at the court-house of that district on the first Monday in January, April, July, and October in each year, and when so assembled said board shall faithfully and impartially examine all such persons as shall appear before them for that purpose touching their qualifications to practice medicine and surgery, or either, and all such persons as shall satisfy such board of examiners, or a majority of them, that he or she is good moral character and duly qualified in knowledge and capacity to practice medicine and surgery, or either, shall receive from such board a certificate of qualification as physician and surgeon, or either, as the case may be, which certificate shall entitle such person to registration under the provisions of section two and three: Provided further, That no person desiring to practice medicine under this Act shall be excluded therefrom on account of any particular system or school of medicine that he or she may desire to practice.

Sec. 9. That the board may refuse certificates to persons guilty of unprofessional or dishonorable conduct, and it may revoke certificates for like causes: Provided always, That they have given the person an opportunity to be heard in his or her defense.

Sec. 10. That any person desiring to be examined at any other time than the regular quarterly meeting shall notify the president of the board of such desire, whose duty it shall be to assemble the board as soon as practicable and examine such applicant.

Sec. 11. That the district clerk shall give to every person registered under this Act a certificate of registration over his signature and official seal, and such certificate shall authorize any such person to practice as physician or surgeon, or both, as the case may be, in any district in the Indian Territory, provided he or she registers said certificate with the clerk of the United States court for each district in which he or she desires to practice.

Sec. 12. That the clerk shall receive as his fee for all services required of him under this Act in each case the sum of one dollar and fifty cents.

Sec. 13. That any two members of said board shall constitute a quorum for the transaction of all such business as shall come before it, and each applicant for examination shall pay in advance to the secretary, to be divided equally among the members of such board, the sum of ten dollars, which shall be their only compensation.

Sec. 14. That all physicians and surgeons holding diplomas desiring to practice the science of medicine and surgery in the Indian Territory shall submit the same to the board of examiners for the district in which they desire to practice for examination and approval, for which said applicant shall pay a fee of one dollar to said board, and upon approval by said board of said diploma shall not be required to undergo the examination herein provided for; and said board shall issue to said applicant a certificate of approval, which certificate shall be registered in the clerk's office for the district in which said board holds jurisdiction: Provided, however, That no person holding a diploma issued after July first, nineteen hundred and four, shall be permitted to practice medicine or surgery for pay in the Indian Territory except that the diploma be issued by a medical school or college requiring a preliminary examination for admission to its course of study in all the common branches and the higher mathematics, which requirements shall be regularly published in all the advertisements in each prospectus or catalogue issued by said school, which medical school or college shall also require as a requisite for granting the degree of doctor of medicine attendance upon at least four courses of lectures of six months each, no two of said courses to be held within one year, and having a full faculty of capable professors in all the different branches of medical education, to wit, anatomy, physiology, chemistry, toxicology, histology, pathology, hygiene, materia medica, therapeutics, obstetrics, bacteriology, medical jurisprudence, gynecology, principles and practice of medicine and surgery, and specially requiring clinical instruction in the last two named of not less than four hours per week in each during the last two courses of lectures.

Sec. 15. That any person who shall prescribe or administer medicine for or who shall in any manner treat disease, wounds, fractures, or other bodily injury for pay shall be deemed physicians and surgeons under this Act.

Sec. 16. That any person who shall hereafter engage in the practice of medicine and surgery, or either, in the Indian Territory, in violation of the requirements of this Act, shall be deemed guilty of a misdemeanor, and upon conviction in any

STEVENS' POCKET VAPORIZER, CONTAINING NOSE AND MOUTH PIECE includes an attachment for a hand bulb, also for a cut-off. Is the finest Pocket Vaporizer manufactured. Price $1.00, with solution to last a year. Price per dozen, $6.00.
PHYSICIANS STANDARD SUPPLY CO., PHILADELPHIA, PA., (See adv. opp. Pennsylvania Physicians.)

court having jurisdiction thereof under the laws of the United States governing the practice of medicine and surgery in the Indian Territory shall be fined in any sum not less than twenty-five dollars and not more than one hundred dollars; and each day said physician or surgeon shall practice medicine or surgery without being registered as hereinbefore required shall be deemed a separate offense: Provided, however, That nothing in this Act shall be construed to prohibit gratuitous service in cases of emergency or the domestic administration of family remedies. And this Act shall not apply to surgeons in the service of the United States in the discharge of their official duties, or to physicians or surgeons from other Territories or States when in actual consultation with a physician or surgeon duly registered as provided herein: And provided further, That osteopath, massage, Christian Science, and herbal treatment shall not be affected by this Act.

Approved, April 23, 1904.

LIST OF PHYSICIANS

ARRANGED ALPHABETICALLY BY POSTOFFICES.

For Corrections and Names Received Too Late for Regular Insertion, see Supplement. Refer to Index for Location.

ABBREVIATIONS:

R., Regular; H., Homœopathic; Ecl., Eclectic; P. M., Physio-Medical; *, No report received; §, Holds certificate of Examining Board; †, Legally authorized under the "years of practice" section of the act; ¶, Druggist; ‡, Dentist. R D 1, Rural Delivery No. 1.

The postoffice address is shown in DISPLAY TYPE, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 145-189) indicates the college of graduation, and the last number the year in which diploma was granted.

The LOHMAN-VINCENT CO.
LAFAYETTE, INDIANA.
MANUFACTURERS OF
High-Grade PHARMACEUTICALS
FOR PHYSICIANS.

INDIANA.

CAPITAL, INDIANAPOLIS.

Population of State, 2,516,462.
(U. S. Census of 1900.)
Number of Physicians, 5,203.

Indiana was organized as a territory July 4, 1808, and admitted as a state December 11, 1816. It extends from 37 degrees 51 minutes to 41 degrees 46 minutes N. latitude, and from 85 degrees 48 minutes to 88 degrees 1 minute W. longitude, and is bounded on the north by Michigan and Lake Michigan, on the south by the Ohio river, which separates it from Kentucky; on the east by Ohio, and on the west by Illinois. It comprises an area of 33,809 square miles, of 21,737,760 acres. The surface is generally level, with the exception of the eastern portion, which has an average elevation of from 700 to 900 feet.

The climate is salubrious, and is somewhat milder than is experienced in the same latitude on the Atlantic const. The winters are cold, but not of long duration, and the summers are often very hot. The mean annual temperature, as observed at Indianapolis, is 51 degrees, that of the summer 72.64 degrees, and of the winter 28.71 degrees. The average annual rainfall is about 43 inches.

The following table shows the increase in population for 70 years:

1830	343,031	1870	1,680,637
1840	685,866	1880	1,978,301
1850	988,416	1890	2,192,404
1860	1,350,428	1900	2,516,462

For list of Medical Colleges, see page 152.

INDIANA MEDICAL LAW OF 1897, WITH AMENDMENTS OF 1899, 1901 AND 1905.

AN ACT regulating the practice of medicine, surgery and obstetrics, providing for the issuing of licenses to practice, providing for the appointment of a State Board of Medical Registration and Examination and defining their duties, defining certain misdemeanors and providing penalties, and repealing all laws in conflict therewith and certain acts therein specified.

(H. 226. Approved March 8, 1897.) (Act 1897, p. 255.)

Section 1. Be it enacted by the General Assembly of the State of Indiana, That it shall hereafter be unlawful for any person to practice medicine, surgery or obstetrics in this State without first obtaining a license so to do, as hereinafter provided.

Sec. 2. After this law goes into effect, any person desiring to begin the practice of medicine, surgery or obstetrics in this State, shall procure from the State Board of Medical Registration and Examination a certificate that such person is entitled to a license to practice medicine, surgery and obstetrics in the State of Indiana; and in order to procure such certificate the applicant shall submit to the State Board of Medical Registration and Examination his diploma, with an affidavit setting forth the time and number of terms, duration of each term, applicant was required to be in attendance at said school in order to complete said course of study, and that the affiant is the person to whom such diploma was issued. Such application shall be accompanied by the affidavit of two freeholders resident in the same county in which the applicant resides, stating that the applicant is the person named in the accompanying diploma and application for a certificate. All diplomas received by the Board shall be returned to the person owning the same, and for failure to return any diploma to its lawful owner within a reasonable time the secretary of said Board shall be liable on his bond for damages in the sum of twenty-five dollars ($25). Such applicant shall pay to said Board the sum of ten dollars ($10) at the time of making such application. All persons who were practicing medicine, surgery and obstetrics in the State of Indiana on March 8, 1897, and have not complied with the provisions of the law, and desiring to continue the same, shall, on or before July 11, 1899, obtain a certificate that they are entitled to do so by presenting to the State Board of Medical Registration and Examination the license possessed by them at the time of the passage of this law, together with an affidavit that they are the legal possessors of the same, and the persons mentioned therein, and such applicant shall pay to the Board the sum of one dollar ($1) at the time of making such application. The Board shall thereupon issue to such applicant a certificate, which, when presented to the County Clerk of the proper county, shall entitle the holder to a license to practice medicine, surgery and obstetrics in the State of Indiana. In the event an applicant for a certificate from the State Board of Medical Registration and Examination shall present a diploma from a medical college which is not recognized as maintaining a sufficiently high grade or standard of medical education as defined and fixed in the records of the Board, the applicant shall have the privilege of being examined as to his qualifications to practice medicine, surgery and obstetrics in such manner as the Board shall provide, and if he shall pass an examination satisfactory to the Board he shall receive a certificate, the same as if he had presented a satisfactory diploma and other evidences and qualifications for the practice of medicine. But if he should fail to pass such examination he shall be permitted to submit to another examination within twelve months from the time of the first examination. He shall pay to the State Board of Medical Registration and Examination the sum of twenty-five dollars ($25): Provided, however, That payment of said sum of twenty-five dollars ($25) shall entitle him to a re-examination in case of failure at the first or any subsequent examination: And provided further, That if such applicant shall fail to pass the examination prescribed by such Board of Medical Registration and Examination, he shall have the right to an appeal to the Circuit or Superior Court of the proper county, requiring such Board to show cause why such applicant should not be permitted to practice medicine, surgery or obstetrics in the State of Indiana, upon the applicant giving a good and satisfactory bond to be approved by the court, to secure all costs of suit should the appeal be determined against him. Upon the receipt of the certificate by the applicant from the State Board of Medical Registration and Examination, the applicant shall, upon the presentation thereof to the Clerk of the county in which he resides, receive from the County Clerk a license to practice medicine, surgery and obstetrics within the State of Indiana. The person receiving such license shall pay to the County Clerk fifty cents ($0.50) as his fee for issuing and recording such license as hereinafter provided. In case of change of residence from one county to another within this State, the holder of a physician's license shall obtain a new license in the county where he proposes to reside, by filing with the County Clerk the license obtained by him in the county in which he last resided, in the same manner as provided for on the presentation of his certificate from the State Board of Medical Registration and Examination, and the Clerk shall issue him a new license. (As amended March 3, 1899, Acts 1899, p. 247.)

Somnoform SIMPLE. SAFE. SURE. The Ideal General Anaesthetic for Minor Surgery.
E de TREY & SONS.
PHILADELPHIA AND NEW YORK.
See adv. opp. beginning N. Y. City Physicians.)

Sec. 3. It shall be the duty of the Clerk of the county in which an applicant resides to issue to the person presenting such certificate, as hereinbefore provided for, a license under his official seal in the following form:

State of Indiana, County of.....ss.:

I, ..., Clerk of the Circuit Court of ..... County, in the State of Indiana, do hereby certify that ..... has complied with the laws of the State of Indiana relating to the practice of medicine, surgery and obstetrics in the county and State aforesaid.

Witness my hand and seal of said Court this.....day of.....19...

.....Clerk.

The County Clerk shall enter of record the name, age, place of birth, address, school or system of medicine to which said applicant belongs, and the person so registering shall subscribe to and verify by oath before such Clerk an affidavit concerning such facts, which, if wilfully false, shall subject the affiant to conviction for perjury. The County Clerk shall furnish annually, on the first day of January, to the State Board of Medical Registration and Examination, upon blanks furnished by said Board, a duplicate list of all certificates received and licenses issued by him during the preceding year, and shall include therein the date of issue of said license, and the name, age and residence of the person receiving the same.

Sec. 4. Within thirty days after this law goes into effect, it shall be the duty of the Governor of the State of Indiana to appoint a State Board of Medical Registration and Examination, composed of five (5) members, who shall serve, two for one year, one for two years, one for three years and one for four years; and their successors for a term of four years each. No school or system of medicine shall have a majority representation on such Board. Said Board shall be non-partisan, and not more than three shall be members of any one political party. The Governor shall select members of said Board of Medical Registration and Examination from reputable physicians in this State who are graduates of any college of medicine of good repute: Provided, That no professor or teacher in a medical college shall be appointed as a member of such Board: Provided, further, That each of the four schools or systems of medicine having the largest numerical representation in the State shall have at least one representative on said Board. Should a vacancy occur in said Board by death, resignation, removal, or otherwise, then it shall be the duty of the Governor to fill the vacancy from the school or system entitled to representation by virtue of such vacancy. The Governor shall have power to remove any member of said Board for incompetency, gross immorality, for any abuse of his official power, or for other good cause, and may fill any vacancy thus occasioned by appointment. Any person appointed to fill any vacancy on such Board, whether occasioned by death, resignation, removal or otherwise, shall hold for the unexpired term of the member whose place he is appointed to fill.

Sec. 5. It shall be the duty of the members of the State Board of Medical Registration and Examination to meet in the city of Indianapolis within thirty days after their appointment, and organize by the election of a President, Secretary and Treasurer, who shall serve until the second Tuesday in January following, and their successors shall be elected on the second Tuesday in January annually thereafter. The said Board shall hold regular meetings on the second Tuesday in January and July of each year, and as often in addition as may be necessary for the transaction of such business as may properly come before it under the provisions of this act, and shall have power to make all necessary rules and regulations for the transaction of its business.

For their services the members shall receive the sum of six dollars ($6) per day, and their traveling expenses necessarily incurred in the attendance upon the business of said Board. It shall be the duty of the Secretary of said Board to keep a record of all applications for certificates, and such record shall contain all the facts set forth in such application, including the action of the Board thereon, and shall execute all orders of said Board, and the Secretary shall have for such service the sum of two hundred and fifty dollars ($250) per annum, to be paid from the funds of said Board, and said Board may employ a clerk, and fix his salary at not more than five hundred dollars ($500) per annum.

It shall be the duty of the Treasurer of said Board to pay quarterly all moneys received by the Board to the Treasurer of State, which moneys shall be credited to a separate and permanent fund for medical registration and examination, which is hereby created. All moneys so paid to the Treasurer of State shall remain and be a separate and permanent fund for the maintenance of the said Board of Registration and Examination. The said Board shall, by its President and Secretary, from time to time, certify to the Auditor of State the necessary expenses incurred by the said Board, including salaries and per diem of the members, and the Auditor shall issue his warrant for the same, which shall be paid out of the fund so established for the maintenance of the said Board: Provided, That no order shall be drawn by any State official on any fund other than the above named fund for any salaries of the Board incident to the administration of this act.

The Treasurer and Secretary of said Board shall each give bond in the sum of five thousand dollars ($5,000), with sureties to be approved by the Governor, which bonds shall be filed with the Auditor of State. The members of the State Board of Medical Registration and Examination are authorized to administer oaths in matters relating to the discharge of their official duties. The State Board of Medical Registration and Examination is charged with the duty of enforcing this act, and it shall be the duty of the Prosecuting Attorney, upon the complaint of the Board, to prosecute any violation of this act.

It shall also be the duty of the grand jury of the proper county to investigate all violations of this act and return indictments therefor in proper cases, and it shall be the duty of the Prosecuting Attorney to prosecute violations of this act by information whenever a proper affidavit is filed by any one, as in other cases of violations of the law; or to prosecute offenders before the Justice of the Peace in proper cases.

BACKWARD CHILDREN Our institution provides a Christian home with expert instruction for constitutionally defective children and adults, backwardness and awkwardness of speech, speech hesitation, lisping, burring, cleft palate, lalling, nasal twang, tied tongue, paralysis of the vocal chords, substitution of sounds, defective articulation, coupled with backwardness of intellect; and all other forms of imperfect utterance of speech and articulation. 32 page ILLUSTRATED BOOK FREE.
THE LEWIS INSTITUTE, 35-41 Adelaide St., DETROIT, MICH., U. S. A.

The State Board of Medical Registration and Examination shall, from time to time, establish and record in a record, kept by them for that purpose, a schedule of the minimum requirements which must be complied with by applicants for examination for license to practice medicine, surgery and obstetrics, before they shall be entitled to receive such license. The said Board shall also, in like manner, establish and cause to be recorded in such record a schedule of the minimum requirements and rules for the recognition of medical colleges, so as to keep these requirements up to the average standard of medical education in other States. After the year 1897 no change shall be made in such schedules of requirements in any year after the month of January of such year, nor shall any change be made to have any retroactive effect, or that shall affect students theretofore matriculated. Such record shall be at all times open to examination by the public, and the said schedules of requirements, after they have been established and recorded, and all changes made therein, shall be printed in circular form, and mailed to all medical colleges in the State, and shall also be furnished to any person upon application. Said Board shall not, in the establishment of the aforesaid schedule of requirements, discriminate for or against any school or system of medicine, nor shall it prescribe what system or systems or schools of medicine shall be taught in any of the colleges, universities or other educational institutions of the State.

It shall have power to make and establish all necessary rules and regulations for the reciprocal recognition of certificates issued by other States, and to prevent unjust and arbitrary exclusions by other States of graduates in medicine from this State who have fulfilled its requirements. When an application for a certificate is made, and a diploma submitted, as herein provided, it shall be the duty of the State Board of Medical Registration and Examination to determine, upon the evidence presented, whether such diploma rightfully belongs to and was issued to the person making application for a certificate, and whether the medical college that issued the diploma maintains a standard of medical education conforming to that fixed by the State Board of Medical Registration and Examination, and whether the application otherwise complies with the rules of the Board.

If these facts are shown by competent evidence, it shall be the duty of the State Board of Medical Registration and Examination to issue a certificate, signed by its President and Secretary, and under its official seal, stating that the person applying for such certificate and possessing such diploma is entitled to a license to practice medicine, surgery and obstetrics in the State of Indiana: Provided, Said application shall be filed prior to January 1, 1905: And provided, further, Said applicant shall have, prior to January 1, 1901, matriculated in a reputable medical college in Indiana, maintaining a standard of medical education conforming to that fixed by said Board, and shall have graduated from said college and received his diploma therefrom, prior to January 1, 1905. Except, as last above provided, no certificate shall be issued to any person whomsoever until he shall have satisfied the said Board that he has graduated at a reputable medical college in this section set forth, maintaining a standard of medical education as above prescribed, and shall have passed before said Board a satisfactory examination as to his qualifications to practice medicine, surgery and obstetrics. Such examination shall be had upon payment of the same fees and upon the same terms and conditions as are provided in Section 1 of said act, approved March 8, 1897, but the applicant shall have the right to designate, in writing, at the time he files his application, the member of the Board who shall conduct his first examination in materia medica, therapeutics, theory and practice of medicine, surgery, obstetrics and gynecology.

The Board at its discretion may authorize the Secretary to issue a temporary permit to an applicant for the interim from date of application until the next regular meeting of the Board. The State Board of Medical Registration and Examination shall have the right to review the evidence upon which a license has been obtained, and if it shall be found that a license has been obtained by fraud or misrepresentation, the Board may revoke such license. The Board [may] refuse to grant a certicate to any person guilty of felony or gross immorality, or addicted to the use of liquor or drug habit to such a degree as to render him unfit to practice medicine or surgery.

If any person holding a license under the provisions of this act shall be guilty of any of the above enumerated acts or shall have procured a certificate or license by fraud or misrepresentation, said Board may, after notice and hearing, revoke any license which has heretofore been or may hereafter be issued to him, together with the certificate upon which such license has been or may be issued.

A specific written charge, verified by affidavit, must be presented to the Board, making definite and specific charges of such facts against the holder of such license. The Board shall thereupon fix a time and place for the hearing of such charges, at which the person charged may appear and defend against the same. A copy of such charges, together with a notice of the time and place fixed for the hearing, shall be served upon the person so charged at least twenty (20) days before the time set for the hearing of the same. If, after such hearing, the Board revokes such certificate and license, such order shall be by said Board entered upon its record. A copy of such order of revocation, certified by the Secretary of such Board, shall be by it at once delivered to the Clerk of the Circuit Court of the county in which such license was issued, and such Clerk shall record the same upon the margin of the record of such license. If the Board shall refuse to grant a certificate for any of the reasons above stated, it shall enter such refusal upon its record, together with a statement of the grounds for such refusal. An appeal may be taken from the action of the Board to the Circuit or Superior Court of the county in which such license was issued in case of revocation, and to the county where the applicant lives in case of refusal of a certificate, upon the licensee or applicant filing with the Clerk of such court, within thirty days from the entering of such order of revocation or refusal by said Board, a good and sufficient bond in the sum of two hundred dollars ($200), to be approved by said Clerk, to secure the payment of costs of such appeal,

PHYSICIANS CASUALTY ASSOCIATION OF AMERICA | $25.00 WEEKLY indemnity for accidental injuries. Costs $3.00 Quarterly. See Page 12 Write E. E. ELLIOTT, Sec'y, OMAHA, NEB.

should the appeal be determined against him. It shall thereupon be the duty of such Clerk to notify the said Board of the filing of such bond, and said Board shall thereupon forward to said Clerk the charges, together with a copy of the order of revocation, where there has been a revocation, or the application for a certificate and a copy of the order of refusal where there has been a refusal to grant a certificate. The Clerk of said court shall thereupon docket the same as a cause pending in said court. Said verified charges shall be treated as a complaint. The accused may plead to said charges and issues may be formed thereon as in any civil case, and the same shall thereupon be tried by the Judge of the Circuit Court. It shall be the duty of the Prosecuting Attorney of the circuit to which said county belongs to appear in such case and represent the Board. The only finding and judgment in such cases shall be "Guilty" or "Not guilty," the same to be rendered separately as to each of the charges. If the finding and judgment of the court be "Not guilty" as to each of said charges, the same shall be by the Clerk of said court certified to said Board, and it shall thereupon make an order setting aside its order of revocation, and forward to the Clerk of said court a certified copy thereof, which shall be entered upon the margin of the record of said license. If judgment of "Guilty" of any of said charges be awarded in said case, the costs of such proceedings shall be recovered of the accused and a fee of ten dollars ($10) shall be taxed therein in favor of the Prosecuting Attorney, and the order of revocation made by said Board shall be and remain in effect. During the pendency of such appeal the accused shall not be entitled to practice by virtue of such license. Where the appeal is from a refusal to grant a certificate, the same shall be heard upon the application and certified copy of the order of refusal without any other issues; the same to be tried by the Judge of said court, who shall, upon his finding, enter a judgment that the license shall or shall not be issued as the facts may require, and upon such order the Clerk of such court shall issue the proper license showing therein the authority by which it is issued, and shall report the same to the State Board. The Prosecuting Attorney shall represent the Board in such appeal, and if the court shall refuse the license judgment shall be entered against the applicant for costs, including ten dollars ($10) fee for the Prosecuting Attorney. Appeals from the judgment of said court may be prosecuted to the Supreme Court as in other civil cases, either by said Board in its own name or by the applicant or holder of such license or certificate, where the judgment may be against him. No fees other than the fees of its own witnesses shall be taxed against said Board in any event. Where the applicant shall appeal from a refusal to grant a certificate, the cause shall be docketed in the name of the applicant against the State Board of Medical Registration and Examination. Where the license or certificate shall have been revoked, the cause shall be entitled The State Board of Medical Registration and Examination against A B (the holder of the license). (As amended March 11, 1901.)

This section has been twice construed by the Supreme Court.

State v. Webster, 150 Ind. 607;

In re Application of Eliza E. Coffin, 152 Ind. 439.

Sec. 6. All persons practicing midwifery in this State, and who have practiced it for ten years last preceding March 8, 1897, and desiring to continue the same shall on or before July 11, 1899, make application to the State Board of Medical Registration and Examination by submitting an affidavit, fully attested, giving the name, age, residence, the length of time during which, and the place or places at which the applicant has been engaged in such practice, and the special education, if any, which the applicant has received for such practice. Such application shall be accompanied by the affidavits of two freeholders, duly attested, that the applicant is known to them as the person applying for a certificate to practice midwifery, and that such applicant has been engaged in the active practice of midwifery, giving the location or locations of such practice for the last ten (10) years previous to the passage of this act. Upon such application and the payment of one dollar ($1) the State Board of Medical Registration and Examination shall issue to the applicant a certificate which shall, when presented to the County Clerk, entitle the holder to a license to practice midwifery in this State. All persons desiring to enter upon the practice of midwifery in this State after this law goes into effect shall present to the State Board of Medical Registration and Examination their diplomas, duly attested, and procured from an obstetrical school of such standing as shall be recognized and determined by the Board. Such applicant shall pay to said Board the sum of five dollars ($5) at the time of making such application; or such applicant shall submit to an examination in midwifery as the Board shall require, and pay a fee of ten dollars ($10). Such evidence of qualification being satisfactory to the Board it shall issue a certificate entitling the holder to a license from the Clerk of the county in which the applicant resides, which license shall entitle the holder to practice midwifery in this State. The license thus issued shall conform to all requirements of registration imposed upon physicians' licenses in Section two of this act and shall be subject to revocation for the same cause as provided in Section five in case of license to physicians. (As amended March 3, 1899, Acts 1899, p. 252.)

Sec. 7. Nothing in this act shall be (so) construed as to discriminate against any school or system of medicine, or to prohibit gratuitous services in cases of emergency, or to the administration of family remedies. This act shall not apply to any commissioned officer of the United States Army, Navy or Marine Hospital service in the discharge of his official duties; nor to any physician or surgeon who is legally qualified to practice in the State or Territory in which he resides, when in actual consultation with a legal practitioner of this State; nor to any physician or surgeon residing on the border of a neighboring State and duly authorized to practice under the laws thereof, whose practice extends to the limits of this State; Provided, That such practitioner shall not open an office or appoint a place to meet patients or receive calls within the limits of this State. This act shall not be construed to prevent medical students from practicing medicine and surgery under the immediate and direct supervision of a licensed physician for a limited period

R. L. POLK PRINTING CO., Ltd. MAKE HIGH-GRADE
DETROIT, - MICH. CATALOGUES.

of two years: Provided, however, That the said student had not practiced medicine, surgery or obstetrics prior to the passage of this act; in the event the amount of time said student has practiced medicine, surgery or obstetrics shall be deducted from the said two years herein mentioned; and in no event shall the said student open an office or offer to engage in the practice of medicine, surgery or obstetrics. Any person violating any of the provisions of this section shall be deemed guilty of a misdemeanor, and on conviction thereof shall subject the offender to a fine of not less than twenty-five dollars ($25) nor more than two hundred dollars ($200). (As amended March 3, 1899, Acts 1899, p. 253.)

Sec. 8. To open an office for such purpose or to announce to the public in any way, a readiness to practice medicine in any county of the State or to prescribe for, or to give surgical assistance to, or to heal, cure or relieve, or to attempt to heal, cure or relieve those suffering from injury or deformity, or disease of mind or body, or to advertise, or to announce to the public in any manner a readiness or ability to heal, cure or relieve those who may be suffering from injury or deformity, or disease of mind or body, shall be to engage in the practice of medicine within the meaning of this act: Provided, That nothing in this act shall be construed to apply to or limit in any manner the manufacture or sale of proprietary medicines. It shall also be regarded as practicing medicine within the meaning of this act, if any one shall use in connection with his or her name the words or letters "Dr.," "Doctor," "Professor," "M. D.," or "Healer," or any other title, word, letter or designation intending to imply or designate him or her as a practitioner of medicine or surgery in any of its branches: Provided, That this act shall not be construed to apply to non-itinerant opticians who are at this time engaged in, or who may hereafter engage in the practice of optometry in this State, nor to professional or other nurses. In charging any person in an affidavit, information or indictment with a violation of this law by practicing medicine, surgery or obstetrics without license, it shall be sufficient to charge that he did, upon a certain day and in a certain county, engage in the practice of medicine, he not having any license to so do, without averring any further or more particular facts concerning the same. (As amended March 11, 1901.)

Sec. 9. Any person who shall practice medicine, surgery or obstetrics in this State without having a license duly issued as hereinbefore provided, shall be deemed guilty of a misdemeanor, and on conviction thereof shall be fined not less than twenty-five dollars ($25) nor more than two hundred dollars ($200).

Sec. 10. All laws and parts of laws in conflict with this act are hereby repealed, and also an act entitled "An act regulating the practice of medicine, surgery and obstetrics, providing for the issuing of license to practice, defining certain misdemeanors and providing penalties," approved April 11, 1885, and all amendments thereto be and the same are hereby repealed.

Additional Sec. 3. Three thousand (3,000) copies of the annual report of the Board to the Governor shall be printed in the same manner as the report of the State Board of Health; and the printing and stationery of the Board shall be paid out of the printing fund. (Added in 1899 and amended, March 11, 1901.)

Additional Sec. 4. The said Board may grant limited certificates which shall authorize the proper Clerk to issue to the holder thereof a license to practice osteopathy only. Such certificate shall be issued on the same terms and conditions as others, except that the applicant therefor shall not be required to pass an examination in materia medica, nor shall the college from which he presents a diploma be required to conform to the standard fixed by said Board as to instructions in materia medica, but such college shall so conform in all other branches of instruction. Such license shall not authorize the holder thereof to administer or prescribe or use on one other than himself any drugs or medicines, and any such administration, prescription or use of any drug or medicine by the person holding such limited license shall be practicing medicine without a license, and such person shall be punished therefor as others are punished for practicing medicine without a license: Provided further, That any person now holding a diploma issued from any college of osteopathy in the United States, and [who] is [now] a resident of the State of Indiana, shall be granted a certificate and license to practice osteopathy upon presenting his diploma to said Board and Clerk and paying the fee required by this act.

OSTEOPATHIC AMENDMENT.

(Sec. 136. Approved March 4, 1905.)

STATE BOARD MEDICAL REGISTRATION—ADDITIONAL MEMBER.

Section 1. Be it enacted by the General Assembly of the State of Indiana, That within sixty days after this law goes into effect it shall be the duty of the Governor to appoint an additional member of the State Board of Medical Registration and Examination, which Board shall thereafter consist of six members, each of whom shall serve as heretofore for a term of office of four years, and until his successor shall have been appointed and qualified. The additional member so appointed shall be a reputable practicing physician and a graduate of a reputable school or college of the system by which he practices, and shall belong to some school or system of practice other than those which are now represented upon said Board, and his successor shall in the future always be of some school different from that of the remaining members of the Board: Provided, That any osteopathist now practicing in and a resident of the State of Indiana, and holding a diploma from a reputable college of osteopathy, as determined by the State Board of Medical Registration and Examination, shall be eligible to an examination on proper application to the said Board, and should he pass this examination, that he shall be granted a certificate for a license forthwith to practice osteopathy in the State of Indiana.

THE PHYSIO-MEDICAL COLLEGE

OF INDIANA, INDIANAPOLIS, IND., U. S. A.

The Leading Exponent of Sanative Medical Science in America. Thirty-Fourth Year. Opens September. 1906, Closes April, 1907.

SPECIAL ADVANTAGES.

1. The College is organized upon the full University basis, with its work divided into nine special Schools, each having a competent Faculty under the management of an experienced Dean.

2. The College equipment is extensive in the Histological, Bacteriological, Chemical and Physiological Laboratories, all of which are operated under skilled specialists as Directors.

3. We possess unexcelled hospital advantages, and the Dispensary operated in conjunction with the College, also furnishes abundant material for clinical Training, which is a conspicuous feature of our courses.

4. The methods of the Institution embody the very latest medical science. The first year is spent in grounding our students thoroughly in the Principles of Sanative Medication. This is followed by three years of the most practical application of principles made in any American medical institution, during which the student learns by repeated actual demonstrations upon clinics, the force of these principles and the knowledge that disease can be more successfully treated without than with poisons.

5. The College has been firmly established, successfully operated, and universally recognized for over thirty years. It was the first medical college in Indiana to receive the legal recognition of the most advanced medical boards of Eastern States, and our students are admitted to practice upon a par with the most advanced medical colleges of the country in practically every state of importance.

REQUIREMENTS FOR ADMISSION.

Applicants may enter this College by complying with the following conditions:

A certificate of good moral character, signed by two reputable citizens of the State of which he was last a resident.

Documentary evidence of preliminary education, the minimum being a diploma or certificate of graduation from a commissioned high school, scientific or literary college or university.

For announcements and other business pertaining to the College, address the Secretary of the Faculty.

THE PHYSIO-MEDICAL COLLEGE OF INDIANA

College Ave. and 14th St. INDIANAPOLIS, IND., U. S. A.

Indiana Medical College

THE SCHOOL OF MEDICINE OF

PURDUE UNIVERSITY

SEPTEMBER, 1905, by unanimous action of their respective Boards of Trustees, assembled in Indianapolis, The Medical College of Indiana, The College of Physicians and Surgeons, and the Fort Wayne School of Medicine merged and became the Medical Department of Purdue University, with the title of Indiana Medical College, The School of Medicine of Purdue University.

These three schools of medicine have given continuous instruction in Indiana for many years. They have graduated over 2500 students, and the properties of these colleges worth $200,000, the student body of 360 students, the histories and traditions of the colleges are all now merged in and are now an integral part of Purdue University, the leading professional school of Indiana and subject to its governing body. For the first time in the history of medical education in Indiana, its medical colleges have formed a university union. For the present year the functions of the Indiana Medical College, The School of Medicine of Purdue University will be carried on exactly as indicated in the 36th Annual Catalogue already issued and distributed. The College will remain permanently in Indianapolis, a city representing the clinical material required for a modern school of practical medicine.

All inquiries and correspondence should be addressed to the Secretary of the Indiana Medical College, The School of Medicine of Purdue University, Indianapolis, Indiana.

EAST FRONT.

SOUTH FRONT.

Session of 1906-1907 begins September, 1906, and Closes April, 1907.

A Four Years' Graded Course of Seven Months Each Year.

REQUIREMENTS FOR ADMISSION.

Applicants may enter this College by complying with the following conditions:

A certificate of good moral character, signed by two reputable citizens of the State of which he was last a resident.

Documentary evidence of preliminary education, the minimum being a diploma or certificate of graduation from a commissioned high school, scientific or literary college or university.

ADVANTAGES.

1. Well established and recognized for thirty years.
2. Competent and progressive faculty.
3. Thoroughly equipped and Modern Chemical and Bacteriological Laboratories.
4. Hospital advantages are excellent, and the Dispensary, which is run in connection with the College, furnishes abundant material for Clinical Teaching, which is a prominent feature in the course of instruction.
5. The work is so graded that one year will be devoted to the consideration of the Principles of Sanative Medication. Then, three years will be given to the practical application of those principles, during which time it will be demonstrated that disease can be more successfully treated without, than with poisons.

R. L. POLK & CO., DETROIT, CHICAGO.

"NORWAYS" *DR. STERNE'S SANATORIUM FOR NERVOUS DISEASES No. 1820 E. Tenth St., (Facing Woodruff Park,) Indianapolis, Ind.*

"NORWAYS"

is strictly a sanatorium for the care and treatment of the sick. It is not a place for persons in search of amusement. The institution is composed of separate buildings, and is thoroughly equipped in every particular. The grounds are extensive and beautiful. The cuisine is excellent. Every method of treatment of known value is employed by skilled attendants. Patients suffering from all forms of nervous diseases, rheumatism, kidney troubles, the various drug habits, are accepted. The earlier stages of tuberculosis and other pulmonary maladies, and those in need of the "rest cure" are especially treated. For mental affections an entirely isolated building is used. Such patients never come in contact with other patients.

TERMS. All charges are payable weekly, one week in advance. They range from $35 to $60 per week, depending upon necessities of treatment and location of room. Regular sanatorium rates include board, room, nursing, treatment and physician's fees. There are no extra charges, unless a special nurse ($10 to $25 per week) is demanded.

The first complete examination is $10, whether a patient remain in the institution or not.

Out-door patients will be charged according to the treatment employed.

GARMENTS. Patients should wear comfortable clothing. No finery is advocated. Each person should have a bath or lounging robe.

Every patient must adhere to the printed rules and regulations of the sanatorium. These are posted in proper places about the buildings. No exception will be made to them in any case.

N. B. No person should be brought to the institution who is too weak to be safely removed from home. For further information apply to the Director.

ALBERT E. STERNE, M. D.

THE HAMMOCK INVALID FOLDING BED.

The hammock feature is one of the most valuable of the many good points of this bed, facilitating the change and airing of bedding, giving the patient the relief of being lifted from a heated mattress to a cool and comfortable hammock, securing perfect ventilation of the body and preventing bed-sores. The circular opening in the hammock enables the use of a chamber without inconvenience. In fact this bed is a revelation to the weary invalid, being invaluable in the treatment of all acute and Chronic Diseases, Paralysis, Rheumatism, Consumption, Continued Fevers, Heart Disease, Fractures and other severe injuries and surgical operations.

Rolling Chairs, Etc. Physicians' Office Furniture.

Address, HAMMOCK INVALID BED CO., Indianapolis, Indiana.

IOWA.

SIOUX CITY COLLEGE OF MEDICINE

14th and Jones Sts., SIOUX CITY, IOWA

The next Annual Session opens Sept. 19th, 1905, and continues for eight months.
The Course of Study is carefully graded, and extends through four years. This College, maintaining membership in the Association of American Medical Colleges, exacts of students such requirements as to Matriculation, attendance upon Didactic, Laboratory and Clinical instructions and Graduation as conform with the requirements of the said Association.
Instruction is imparted by Lectures, Recitations, Clinic and Practical Laboratory Work in Anatomy, Histology, Chemistry, Pathology and Bacteriology, with bedside instruction in Surgery, Medicine, Obstetrics and Gynæcology.
Weekly Clinics at the St. Joseph's and Samaritan Hospitals.

DR. F. E. FRANCHERE, Secretary, SIOUX CITY, IOWA.

CAPITAL, DES MOINES.

Population of State, 2,231,853.
(U. S. Census of 1900.)
Number of Physicians, 3,835.

Iowa was organized as a territory July 3, 1838, admitted as a state March 3, 1845, and readmitted with enlarged boundaries December 28, 1846. The population of the state, according to the U. S. Census of 1900, is 2,231,853, as against 1,911,896 in 1890, representing an increase during the decade of 319,957, or 16.7 per cent. The following table shows increase in population since 1840:

1840	43,112	1880	1,624,615
1850	192,214	1890	1,911,896
1860	674,913	1900	2,231,853
1870	1,194,020		

STEVENS' POCKET VAPORIZER, CONTAINING NOSE AND MOUTH PIECE includes an attachment for a hand bulb, also for a cut-off. Is the finest Pocket Vaporizer manufactured. Price $1.00, with solution to last a year. Price per dozen, $6.00.

PHYSICIANS STANDARD SUPPLY CO. ,PHILADELPHIA, PA., (See adv. opp. Pennsylvania Physicians.)

The total land surface of Iowa is, approximately, 55,475 square miles, the average number of persons to the square mile at the censuses of 1890 and 1900 being as follows: 1890, 34.5; 1900, 40.2. It extends from 40 degrees 25 minutes to 43 degrees 30 minutes north latitude and from 90 degrees 18 minutes to 96 degrees 53 minutes west longitude, and is bounded on the north by Minnesota, on the south by Missouri, on the east by Wisconsin and Illinois and on the west by Dakota and Nebraska. Iowa forms part of a vast plain and there are no mountains or ranges of hills within the state. The only slopes and surface diversities are formed by the streams, many of which have cut deep valleys into the general level. The highest portion of the state is the elevated plateau forming the divide between the rivers which empty into the Mississippi river and those which empty into the Missouri river. The lowest point of the state is the southeast extremity at Keokuk, where the Des Moines river empties into the Mississippi. It is 444 feet above sea level. The most elevated section is near Spirit Lake, in the northwestern portion, which is 1,694 feet above sea level. The state is particularly well watered, the principal rivers being the Mississippi and Missouri, which form respectively its eastern and western limits, and the Cedar, Iowa, Des Moines, Wapsipinicon and Skunk, affluents of the first-named, and the Big Sioux, Little Sioux, Boyers and Nishnabotna, which empty into the Missouri. There are numbers of beautiful small lakes scattered throughout the state. The climate of Iowa is free from injurious extremes, and the purity and dryness of the atmosphere is a marked characteristic. The mean annual temperature as observed at Des Moines is 48.94 degrees, that of the summer 71.80 degrees and of the winter 25.39 degrees. The average amount of rainfall is about 43 inches.

For list of Medical Colleges, see page 152.

STATE BOARD OF HEALTH.

Chas W Mullan, Atty-Gen, Waterloo; Paul O Koto, M D C, State Veterinary Surgeon, Forest City; Charles Francis, C E, Davenport; B L Eiker, Decatur; R E Conniff, M D, Sioux City, Pres; Fred W Powers, M D, Waterloo; J H Sams, M D, Clarion; A M Linn, M D, Des Moines; A P Hanchett, M D, Council Bluffs; A C Moerke, M D, Burlington; J F Kennedy, M D, Sec, Des Moines.

MEDICAL LAW OF IOWA.

Circular of Information, Iowa State Board of Medical Examiners.

The following facts are stated for the information of those desiring to practice medicine, surgery, or obstetrics in any of their branches in the State of Iowa, and are furnished in lieu of the statute, which is not published in pamphlet form.

The statute relating to the practice of medicine is entitled Chapter 17, Title XII., The Code, and is embraced in sections 2576 to 2583, both inclusive. The following embraces every important feature:

Section 2576 makes the physicians of the State Board of Health (seven) the Board of Medical Examiners and the secretary of the former board the secretary of the latter; provides for meetings in May and November and oftener if deemed necessary; provides for issuing a certificate upon proper application and prescribes the fee therefor. It prescribes the method of examination, and states that a failure to pass the examination will entitle the candidate to a re-examination without additional fee.

Section 2577 requires that before beginning practice the certificate shall be registered with the county recorder of the county in which the holder thereof resides, and in any other county of the State to which he may remove to practice. The fee for such record is fifty cents.

Section 2578 declares that a certificate may be refused to anyone otherwise qualified who is not of good moral character; and for like cause, or incompetency, or habitual intoxication, or upon proper evidence that a certificate had been granted upon false or fraudulent statements as to graduation or length of practice, may revoke the same; provides that such revocation can only be made by an affirmative vote of at least five members of the Board, and this number shall embrace at least one or more members of the different schools of practice on the Board; and further, that the standing of a legally chartered medical school can only be questioned by a like vote.

Section 2579 says that anyone shall be regarded as a physician under the meaning of the law who shall publicly profess to be a physician, surgeon or obstetrician, and assume the duties thereof, or who shall make a practice of prescribing or of prescribing and furnishing medicine for the sick, or who shall publicly profess to cure or heal. The following persons are exempt from the provisions of the law: Medical students, who have attended not less than two full courses of lectures in a reputable medical college, who may prescribe under the supervision of a preceptor, or render gratuitous services in cases of emergency; surgeons of the U. S. army or navy, or of the U. S. marine hospital service; physicians and mid-wives who have previously obtained certificates on length of practice without diploma or examination; physicians who without such certificate had been in practice in Iowa for five consecutive years, three years in one locality, prior to the passage of the law (1886); registered pharmacists filling prescriptions; advertising or selling patent or proprietary medicines or natural mineral waters flowing from wells or springs.

Section 2580 prescribes penalties as follows: For presenting to the Board of Medical Examiners a fraudulent or false diploma, or one of which the holder is not the rightful owner, in order to procure a certificate; or for filing or attempting to file with the county recorder the certificate of another; or for practicing without obtaining and recording the required certificate, or for continuing to practice after the certificate has been revoked (unless embraced in the exceptions of Section 2579), the offense is declared a misdemeanor, and the fine not less than three hundred nor more than five hundred dollars and imprisonment in the county jail until such fine is paid. Anyone who shall attempt to file with the county recorder the certificate of another person, with the name of the party to whom it was issued erased and the claimant's name inserted, or shall attempt to file with the Board of Medical Examiners any false affidavit of identification, shall be guilty of forgery.

KRETOL
Disinfectant by means of a common sprayer, diluting the KRETOL from 1 to 16 to 1 to 200. All Druggists, or The "Kretol" Co. WASHINGTON, D.C.

For cleaning water pipes, sinks, drains, cuspidores sick rooms, bedding, and rendering sanitary the condition of the household. Dilute with water, and scrub the floors and walls, or spray the sick room

Section 2581 declares an itinerant physician to be a physician practicing medicine, surgery or obstetrics or professing or attempting to treat, cure or heal diseases, ailments or injuries by any medicine, appliance or method, who goes from place to place, or from house to house, or by circulars, letters or advertisements asks persons to meet him for such treatment at places other than at his office, at his place of residence, and requires all such, in addition to the ordinary physician's certificate to procure an itinerant's license from the State Board of Medical Examiners, for which he shall pay to the state treasurer the sum of two hundred and fifty dollars per annum. The penalty for itinerating without such license is the same as for practicing as a physician without a certificate. The Board may, for cause, refuse to issue such license, or having issued it, may revoke it for incompetency or gross immorality. This section does not prevent physicians from attending patients in any part of the State, to whom he may be called in the regular course of business, nor from consulting with other physicians.

Section 2582 provides that after January 1, 1899, no person can begin the practice of medicine in Iowa excepting upon examination; that no person can be admitted to examination except upon graduation from a medical college recognized by the Board as of good standing, and that no college can be so recognized by the Board that does not require of those graduating after January 1, 1899, attendance upon four full courses of medical study of not less than twenty-six weeks each, no two of which courses shall have been given in any one year, as a condition of such graduation.

THE RECIPROCITY BILL.

As Passed by the Legislature of Iowa—Mentioned Elsewhere as a Reciprocity Measure.

Senate File.

For an Act to Amend Section Two Thousand Five Hundred and Eighty-two (2582), Title XII. (12), Chapter Seventeen (17), of the Code, relating to granting certificates to practice medicine by reciprocity with other states.

Be It Enacted by the General Assembly of the State of Iowa:

Section 1. That section two thousand five hundred and eighty-two (2582), title XII. (12), chapter seventeen (17), of the Code be and the same is hereby amended by adding thereto the following:

Provided, That a certificate of registration showing that an examination has been made by the proper board of any state, on which an average grade of not less than 75 per cent was awarded, the holder thereof having been at the time of said examination the legal possessor of a diploma from a medical college in good standing in the state where reciprocal registration is sought, may be accepted in lieu of examination as evidence of qualification. In case the scope of the said examination was less than that prescribed by the state in which registration is sought the applicant may be required to submit to a supplemental examination by the baord thereof in such subjects as have not been covered.

Provided further, That a certificate of registration or license issued by the proper board of any state, may be accepted as evidence of qualification for reciprocal registration in any other state where the holder thereof was, at the time of such registration, the legal possessor of a diploma issued by a medical college in good standing in the state in which reciprocal registration is sought, and that the date thereof was prior to the legal requirement of the examination test in such state.

The fee for such certificate shall be fifty (50) dollars and the fund so created shall be disposed of as directed by section 2583. This board may refuse to thus reciprocate with any other state that may discriminate against such medical colleges in the State of Iowa as have been duly recognized as of good standing by the Iowa State Board of Medical Examiners.

LIST OF PHYSICIANS

ARRANGED ALPHABETICALLY BY POSTOFFICES.

For Corrections and Names Received Too Late for Regular Insertion, see Supplement. Refer to Index for Location.

ABBREVIATIONS:

R., Regular; H., Homœopathic; Ecl., Eclectic; P. M., Physio-Medical; *, No report received; §, Holds certificate of Examining Board; †, Legally authorized under the "years of practice" section of the act; ¶, Druggist; ‡, Dentist R D 1, Rural Delivery No. 1.

The postoffice address is shown in DISPLAY TYPE, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 145-189) indicates the college of graduation, and the last number the year in which diploma was granted.

CORRESPONDENCE SCHOOL.
SUMMER SCHOOL.

The Expenses are Low—so low that no ambitious young man or woman should find it impossible to attend school here. The opportunities offered in Des Moines for students to work for a portion of their expenses are numerous and remunerative. Fully one-half earn a portion of their expenses while attending the University. Good, wholesome, hygienic board is available at Drake University at the exceedingly low rate of TWO DOLLARS PER WEEK.

Drake University always has been and still is a school pre-eminently for the poor man or woman who is willing to work.

We have announcements giving special information concerning each school or college which we are pleased to send free upon request.

Address all inquiries to DRAKE UNIVERSITY,
Des Moines, Iowa.

KANSAS.

CAPITAL, TOPEKA.

Population of State, 1,544,968.
(State Census of 1905.)
Number of Physicians, 2,732.

Kansas was organized as a Territory May 30, 1854, and admitted as a State January 29, 1861. It lies within the meridians of 94 degrees 37 minutes and 102 degrees west longitude, and parallels 37 degrees and 40 degrees north latitude, and is bounded on the north by Nebraska, on the south by Indian Territory, on the east by the Missouri River and the State of Missouri, and on the west by Colorado. It is the central State of the Union, excluding the remote possessions, being equi-distant from the Pacific and the Atlantic Oceans on the west and east, and the British possessions and Mexico on the north and south, and contains an area of 81,318 square miles, or 52,043,520 acres.

The climate is mild and healthful, the mean annual temperature as observed at Lawrence being about 53 degrees—that of the summer 75.82 degrees and of the winter 31.65 degrees. The average annual rainfall is about 31.75 inches.

The following table shows the increase in population (U S Census) for 30 years:

1870	373,299	1890	1,427,096
1880	996,096	1900	1,470,495

The total number of deaths during 1900 was 7,732; rate per 1,000, 5.26.

For list of Medical Colleges see page 152.

MEDICAL LAWS OF KANSAS.

AN ACT To create a state board of medical registration and examination and to regulate the practice of medicine, surgery and osteopathy in the state of Kansas, prescribing penalties for the violation thereof, and repealing chapter 68 of the Session Laws of 1870.

Be it enacted by the Legislature of the State of Kansas:

Section 1. Within sixty days after the passage of this act, the governor, by and with the consent of the Senate, shall appoint a state board of medical registration and examination, consisting of seven members, one to serve for one year, two for two years, two for three years, and two for four years, and the successors of each shall be appointed in the same manner for the term of four years, who shall be physicians in good standing in their profession, and who shall have received the degree of doctor of medicine from some reputable medical college or university not less than six years prior to their appointment, representation to be given to the different schools of practice as nearly as possible in proportion to their numerical strength in this state, but no one school to have a majority of the whole board. Each member of the board shall take and subscribe the oath prescribed by law for state officers, which oath shall be filed with the Secretary of State. The board shall organize by the selection of a president and secretary from among their own number each to serve for such term as the board may designate, not exceeding four years. It shall have a common seal, and shall formulate rules to govern its actions. Its president and secretary shall have power to administer oaths pertaining to all matters related to the business of the board. The secretary shall furnish to said board a satisfactory bond conditioned for the faithful performance of his official duties. Said board shall hold regular meetings on the second Tuesday in February, June and October, of each year, and one other meeting at such time and place as the board may designate, in such of the chief cities of the state as the board may designate. Five members shall constitute a quorum for the transaction of all business, but no license to practice medicine and surgery shall be issued by the board upon less than five affirmative votes when the full board is present, or upon less than a majority affirmative votes when less than full board is present. The board shall keep a record of all of its proceedings, and also a register of all applicants for license to practice medicine in all of its branches within the state, together with a record showing the age of the applicant, time spent in the study of medicine, and the name and location of the institution or institutions from which the applicant may have received degrees or certificates of medical instructions; also, whether the candidate was licensed or rejected, said books and register shall be prima facie evidence of all matters recorded therein.

Sec. 2. All persons engaged in the practice of medicine on the date of the passage of this act, shall within four months from the date of such passage apply to the board of registration and examination for a license to practice. To all such as present the following qualifications, the board shall issue a license upon payment of fee hereinafter specified: If a graduate in medicine or surgery, he shall either personally or by letter or proxy present his diploma to the state board of medical registration and examination for verification. Accompanying such diploma the applicant shall file his affidavit duly attested, stating that the applicant is the person named in the diploma and is the lawful possessor of the same, and giving his age, and time spent in the study of medicine. If the board shall find the diploma to be genuine, and from a legally chartered medical institution, in good standing, as determined by the board, and the person named therein, be the person holding and presenting the same, the board shall issue its certificate to that effect, signed by its president and secretary, which, when left for record with the county clerk of the county in which said applicant practices, as hereinafter required, shall be conclusive evidence that its owner is entitled to practice medicine and surgery in this state. If a practitioner of medicine, in Kansas, at the time of the passage of this act, but not a graduate of medicine or surgery as above defined, he shall either personally or by letter or proxy, furnish the board affidavits duly attested, stating the period during which, and the places at which he has been engaged in the practice of medicine or surgery. If the board is satisfied from the affidavit and other information received that the applicant was a resident engaged continuously in the practice of medicine in the State of Kansas, for seven years prior to the passage of this act, it shall issue its certificate to that effect, which when left for record with the County Clerk of the county in which he resides shall be conclusive evidence that its owner is entitled to practice medicine and surgery in this state. If engaged in the practice of medicine in this state at the time of the passage of this act for a less period than seven years, prior to the passage of this act, and not a graduate in medicine or surgery as above defined, the applicant shall present himself before the board and submit to such examination as to his qualifications for the practice of medicine and surgery as the board may require. If the applicant passes the examination satisfactory to the board, the board shall issue its certificate to that effect, which, when left for record with the county clerk of the county in which he resides shall entitle its owner to practice medicine or surgery in this state. The board may refuse to grant a certificate to any person guilty of felony or gross

immorality or addicted to the liquor or drug habit to such a degree as to render him unfit to practice medicine or surgery and may after notice and hearing revoke the certificate for like cause.

Sec. 3. All persons intending to practice medicine, surgery or osteopathy after the passage of this act, and all persons who shall not have complied with Section 2 of this act shall apply to said board at any regular meeting or at any other time or place as may be designated by the board for a license. Application shall be made in writing, and shall be accompanied by the fee hereinafter specified, together with the age and residence of the applicant, proof that he or she is of good moral character and satisfactory evidence that he or she has devoted not less than three periods of six months each, no two within the same twelve months, or if after April 1, 1902, four periods of not less than six months each, no two in the same twelve months to the study of medicine and surgery. All such candidates, except as hereinafter provided shall submit to an examination of a character to test their qualifications as practitioners of medicine or surgery, and which shall embrace all those topics and subjects a knowledge of which is generally required by reputable medical colleges of the United States for the degree of Doctor of Medicine; provided that the examination in materia medica and therapeutics and in the theory and practice of medicine shall be conducted by those members only of the board who are of the same school of practice as the applicant claims to follow; provided, further, that graduates of legally chartered medical institutions of the United States or foreign countries in good standing, as determined by the board may be, at the discretion of the board, granted a license without examination; provided further, that any graduate of a legally chartered school of osteopathy wherein the requirements for the giving of a diploma shall include a course of instruction of not less than four terms of five months each, in two or more separate years, shall be given a certificate of license to practice osteopathy upon the presentation of such diploma; provided further, that the board may in its discretion accept, in lieu of examination or diploma, the certificate of the board of registration and examination of any other state or territory, of the United States or any foreign country whose standards of qualification for practice are equivalent to those of this state; provided, that a temporary certificate may be issued to any student of medicine, or practitioner of medicine, who is not qualified under the law upon the written request of a majority of the practitioners of medicine under this act in the county in which he or she desires to practice, or if there be no practitioners registered under this act in any county in this state, theboard shall issue a temporary permit to persons as above described upon the application of the Board of County Commissioners of said county.

Sec. 4. Upon the completion of the examination or the acceptance of the diploma or certificate as herein provided, the said board shall, if it finds the applicant qualified, grant and issue a certicate to said applicant to practice medicine and surgery or osteopathy within the state, and which shall be signed by the president and secretary and attested by the seal of the board. Within thirty days of the date of any certicate of license having been granted and issued by the board, the owner thereof shall have it recorded as hereinafter provided, in the office of the clerk of the county in which he resides, or if a non-resident of this state, then of the county in which he has an office or intends to practice, and the date of recording shall be endorsed thereon, and until such certificate or license is recorded he shall not exercise any of the rights or privileges therein conferred. The county clerk shall keep in a book for the purpose, a complete list of the certificates recorded by him, which book shall be open to public inspection during business hours. Between the first and twentieth days of December in each year, the county clerk shall furnish the secretary of the board a list of all certificates recorded and in force, and also a list of all certificates which have been revoked, or the owners of which have removed from the county or died during the year. The fee for the recording and reporting of such certificates shall not exceed one dollar.

Sec. 5. The fee for the issuance of a certificate to all those found qualified to practice medicine, surgery or osteopathy without examination as provided under Section 2, shall be two dollars. The fee for examination shall be fixed by the board, but shall not exceed fifteen dollars. The fee for examination of diploma, or certificate from an examining board of another state, shall also be fixed by the board, but shall not exceed ten dollars. All moneys received by the board shall be paid by the secretary thereof into the state treasury monthly. The compensation and actual traveling and other expenses of the board shall be paid from the treasury of the state; provided, that the total amount paid from the state treasury under the provisions of this act shall not exceed the amount paid into the treasury as herein provided. The compensation of the members of the board shall be six dollars for every day actually spent in the discharge of their duties. In addition to his actual traveling expenses, the secretary shall receive a salary to be fixed by the board, but it shall not exceed eight hundred dollars per annum. All of such compensation and traveling expenses shall be approved by the president and secretary of the board. It shall be the duty of said board to make a report of their proceedings to the Governor annually on or before the 15th day of November, which report shall include an account of all moneys received and disbursed by them.

Sec. 6. Any person shall be regarded as practicing medicine and surgery within the meaning of this act who shall prescribe, or who shall recommend for a fee for like use, any drug or medicine, or perform any surgical operation of whatever nature for the cure or relief of any wounds, fracture, or bodily injury, infirmity or disease of other person, or who shall use the words or letters "Dr.," "Doctor," "M. D.," or any other title in connection with his name which in any way represents him as engaged in the practice of medicine and surgery, but nothing in this act shall be construed as interfering with any religious beliefs in the treatment of disease: Provided, that quarantine regulations relating to contagious diseases are not infringed upon. All persons who practice osteopathy shall be registered and licensed as doctors of osteopathy as hereinbefore provided, but they shall not administer drugs or medicines of any kind nor perform operations in surgery. This act shall not apply to any commissioned medical office of the

United States Army, Navy, or Marine Service, in the discharge of his official duties, nor to any legally qualified dentist, when engaged in the legitimate practice of his profession; nor to any physician or surgeon who is called from another state or territory in consultation with a licensed physician of this state, or to treat a particular case in conjunction with a licensed practitioner of the state, and who does not otherwise practice in the state. Nor shall anything in this act apply to the administration of domestic medicines nor to prohibit gratuitous services; provided, any person holding a diploma issued by an optical college and who has studied the anatomy of the eye and contiguous parts, human physiology and natural philosophy for at least six months under a competent teacher and who shall pass examination satisfactory to the state board of medical registration and examination shall be eligible to register as an "Optician" or "Doctor of Optics" and shall be otherwise governed by this act so far as the same is applicable.

Sec. 7. From and after the 1st day of September, 1901, any person who shall practice medicine and surgery or osteopathy in the state of Kansas without having received and had recorded a certificate under the provisions of this act, or any person violating any of the provisions of this act, shall be deemed guilty of a misdemeanor, and upon conviction thereof shall pay a fine of not less than fifty dollars nor more than two hundred dollars for each offense and in no case wherein this act shall have been violated shall any person so violating receive compensation for services rendered. It shall be the duty of the secretary of the state board of registration and examination to see that this act is enforced.

Sec. 8. Any person who shall swear falsely in any affidavit or oral testimony made or given by virtue of the provisions of this act, or the regulations of said board of registration shall be deemed guilty of perjury.

Sec. 9. Chapter 68 of the Session Laws of 1870 is hereby repealed.

Sec. 10. This act shall take effect and be in force from and after its publication in the official state paper.

Approved March 1st, 1901.

CIRCULAR OF INFORMATION RELATIVE TO THE PRACTICE OF MEDICINE IN THE STATE OF KANSAS, ISSUED BY THE STATE BOARD OF REGISTRATION AND EXAMINATION.

The basis of all registration for the practice of medicine and surgery will be a satisfactory examination by the Kansas State Board of Medical Registration and Examination.

All applicants must have one of the following qualifications, to be admitted to the examination:

1. They must have graduated from a legally qualified medical school whose full course of instruction was two years and have had twelve years' practice.
2. They must have graduated from a legally qualified medical school whose full course of instruction was three years and have had seven years' practice.
3. They must have attended a legally qualified medical school four years and from which they have received a diploma.
4. Reciprocal relations have been established with the following states: Ohio, Illinois, New Jersey, Indiana, Maryland, Michigan, Wisconsin, Iowa, Nebraska, Minnesota, Wyoming and South Carolina. The three first named are based on qualification No. 1 and the others on qualifications Nos. 1 and 2, as adopted by the American Confederation of Reciprocating, Examining and Licensing Medical Boards.

This Board shall be the judge of what constitutes a legally qualified medical school.

Suitable application blanks will be furnished by the Secretary. They must be filled out, sworn to, and returned to the Secretary.

Diplomas must be inspected by the Board before applicants will be allowed to take the examination.

Osteopaths can register under the following conditions: They must present their diplomas to the Board and show evidence of having attended four courses of five months each at a legally qualified school of osteopathy, the Board to be the judge of the school. Application blanks must be filled out and sworn to, same as for other applicants.

The Secretary will, upon the receipt of a properly executed application, accompanied by the proper fee, issue a temporary permit, good until the next examination following the date of the application. No extra fee for the temporary permit.

Students of medicine who have taken three full courses of instruction at some reputable medical school may be granted a temporary permit to practice on the following conditions: That they present a petition to the Board of a majority of the registered physicians in the county in which they intend to locate; also, a certificate from the county clerk stating that the petition does contain a majority of all the registered physicians in the county.

FEES.

For examinees in medicine	$15.00
For osteopathic diplomas	10.00
For student's license	2.00

Do not fail to have your license recorded as soon as you get it.

The dates of the regular meetings are as follows: The second Tuesday in February, June and October. They will be held at the state house, in Topeka, commencing at 9 a. m. Such other meetings will be held as the Board thinks best.

Cutter's Antitoxin, "California's Favorite," produced under U. S. Government License No. 8. Hundreds of good reports, not even one bad one. Prices the lowest, package the best. (See page 261.)

LIST OF PHYSICIANS

ARRANGED ALPHABETICALLY BY POSTOFFICES.

For Corrections and Names Received Too Late for Regular Insertion, see Supplement. Refer to Index for Location.

ABBREVIATIONS:

R., Regular; H., Homoeopathic; Ecl., Eclectic; P. M., Physio-Medical; °, No report received; §, Holds certificate of Examining Board; †, Legally authorized under the "years of practice" section of the act; ‡, Druggist; ‖, Dentist R D 1, Rural Delivery No. 1.

The postoffice address is shown in DISPLAY TYPE, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 145-189) indicates the college of graduation, and the last number the year in which diploma was granted.
